UNMODIFIED OPINION ON GOVERNMENTAL BASIC FINANCIAL STATEMENTS, WITH REQUIRED SUPPLEMENTARY INFORMATION, SUPPLEMENTARY INFORMATION AND OTHER INFORMATION

Independent Auditor's Report

Board of Trustees McLean Independent School District McLean, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of **McLean Independent School District** (the District), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Board of Trustees McLean Independent School District Page 2

Emphasis of Matter

As discussed in Note V of the financial statements, in 2021, the District adopted new accounting guidance prescribed by Governmental Accounting Standards Board Statement No. 84 - *Fiduciary Activities* (GASB 84) for its fiduciary funds. Because GASB 84 implements new measurement criteria and reporting provisions, significant information has been added to the Fiduciary Fund Financial Statements. Exhibit E-1 discloses the District's Fiduciary Fund Net Position. Exhibit E-2 discloses the adjustment to the District's Fiduciary Fund Net Position. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis; Schedule of Revenues, Expenditures, and Changes in Fund Balance Budget to Actual - General Fund: Schedule of the District's Proportionate Share of the Net Pension Liability (TRS): Schedule of District Contributions for Pensions (TRS); Schedule of the District's Proportionate Share of the Net OPEB Liability (TRS) and Schedule of District Contributions for Other Post Employment Benefits (OPEB) (TRS) on pages 5 through 13 and pages 53 through 59 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual nonmajor fund financial statements and the required Texas Education Agency schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information, including combining and individual nonmajor fund financial statements and the required Texas Education Agency schedules are the responsibility of management, and were derived from, and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the required Texas Education Agency schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Board of Trustees McLean Independent School District Page 3

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 15, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance, the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Johnson & Sheldon, PLLC Amarillo, Texas November 15, 2021

MANAGEMENT'S DISCUSSION AND ANALYSIS

In this section of the Annual Financial and Compliance Report, we, the managers of McLean Independent School District (the District), discuss and analyze the District's financial performance for the fiscal year ended June 30, 2021. Please read it in conjunction with the District's financial statements which follow this section.

FINANCIAL HIGHLIGHTS

- The District's total combined net position was \$6,714,003 at June 30, 2021.
- The District's governmental funds financial statements reported combined ending fund balance of \$4,996,630. This balance consists of \$4,879,090 in the General Fund of which \$4,879,090 is unassigned and available for spending at the District's discretion. Restricted fund balance totals \$97,540 and is used by the Debt Service Fund and Non-major Funds. Non-spendable fund balance is \$20,000.
- For the year ended June 30, 2021, total revenue from all sources was \$3,093,784. Program revenues accounted for \$451,915 of total revenues. General revenues and special items accounted for \$2,641,869.
- The General Fund had \$2,657,696 in revenues, which primarily consisted of state aid and property taxes, \$2,754,151 in expenditures and other financing uses, and (\$41,765) in net extraordinary items which resulted in a decrease to the fund balance of \$138,220.

USING THIS ANNUAL REPORT

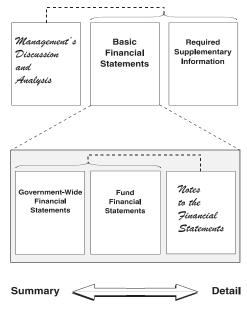

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Position and the Statement of Activities (on pages 15 and 16). These provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements (starting on page 18) report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources and supply the basis for tax levies and the appropriations budget.

The notes to the financial statements (starting on page 25) provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements. The notes provide additional information that is essential in fully understanding the data provided in the government-wide and fund financial statements.

The combining statements for non-major funds contain even more information about the District's individual funds. These are not required by Texas Education Agency. The section labeled Required TEA Schedules contains data used by monitoring or regulatory agencies for assurance that the District is using funds supplied in compliance with the terms of grants.

Exhibit I - Required Components of the District's Annual Financial Report

USING THIS ANNUAL REPORT (continued)

Exhibit II summarizes the major features of the District's financial statements, including the portion of the District's government they cover and the types of information they contain. The remainder of this section explains the structure and contents of each of the statements.

Exhibit II Major Features of the District's Government-Wide and Fund Financial Statements

			Fund Statements	
Type of Statement	Government-Wide	Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire Agency's government (except fiduciary funds) and the Agency's component units.	The activities of the District that are not proprietary or fiduciary.	Activities of the District which operate similar to private business.	Instances in which the District is the trustee or agent for someone else's resources.
Required financial statements	 Statement of Net Position Statement of Activities 	- Statement of Revenues, Expenditures and Changes in Fund Balances	- Statement of Net Position - Statement of Revenues, Expenditures and Changes in Net Position - Statement of Cash Flows	 Statement of Net Position Statement of Changes in Net Position
Accounting basis and measurement focus	Accrual accounting and economic resources focus.	Modified accrual accounting and current financial resources focus.	Accrual accounting and economic resources focus.	Accrual accounting and economic resources focus.
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long- term.	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included.	All assets and liabilities, both financial and capital, short-term and long- term.	All assets and liabilities, both short- term and long-term.
Type of inflow/outflow information	All revenues and expenses during the year, regardless of when cash is received or paid.	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter.	All revenues and expenses during the year, regardless of when cash is received or paid.	All revenues and expenses during the year, regardless of when cash is received or paid.

USING THIS ANNUAL REPORT (continued)

Reporting the District as a Whole

The Statement of Net Position and the Statement of Activities

The analysis of the District's overall financial condition and operations begins on page 15. Its primary purpose is to show whether the District is better off or worse off as a result of the year's activities. The Statement of Net Position includes all the District's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the District's operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The District's revenues are divided into those provided by outside parties who share the costs of some programs, such as tuition received from students from outside the district and grants provided by the U.S. Department of Education to assist children with disabilities or from disadvantaged backgrounds (program revenues), and revenues provided by the taxpayers or by TEA in equalization funding processes (general revenues). All the District's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report the District's net position and changes in net position. The District's net position (the difference between assets and liabilities) provides one measure of the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the District, however, you should consider nonfinancial factors as well, such as changes in the District's average daily attendance or its property tax base and the condition of the District's facilities.

In the Statement of Net Position and the Statement of Activities, we present the District with only one kind of activity:

• Governmental activities - Most of the District's basic services are reported here, including the instruction, counseling, co-curricular activities, food services, transportation, maintenance, community services, and general administration. Property taxes, tuition, fees, and state and federal grants finance most of these activities.

Reporting the District's Most Significant Funds

Fund Financial Statements

The governmental fund financial statements begin on page 18 and provide detailed information about the most significant funds, not the District as a whole. Laws and contracts require the District to establish some funds, such as grants received under the No Child Left Behind Act from the U.S. Department of Education. The District's administration establishes many other funds to help it control and manage money for particular purposes (like campus activities). The District's governmental fund uses the following accounting approaches:

• Governmental funds - Most of the District's basic services are reported in governmental funds. These use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation schedules following each of the fund financial statements.

USING THIS ANNUAL REPORT (continued)

Reporting the District's Most Significant Funds (continued)

Fund Financial Statements (continued)

• Fiduciary funds - Fiduciary funds are used to account for resources held for the benefit of parties outside of the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of these funds are not available to support the District's own programs. The District is the trustee, or fiduciary, for these funds and is responsible for ensuring that the assets reported in these funds are used for their intended purposes. The District's fiduciary activities are reported in a separate Statement of Fiduciary Fund Net Position and a Statement of Changes in Fiduciary Net Position that can be found on pages 23 and 24.

The notes to the financial statements provide additional information that is essential to a complete understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 25 through 52.

The District as Trustee

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for money raised by student activities. All of the District's fiduciary activities are reported in a separate Statement of Fiduciary Fund Net Position and a Statement of Changes in Fiduciary Net Position on pages 23 and 24. We exclude these resources from the District's other financial statements because the District cannot use these assets to finance its operations. The District is only responsible for ensuring that the assets reported in these funds are used for their intended purposes.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position

As noted earlier, net position may serve over time as a useful indicator of the District's financial position. The District's combined net position between fiscal years 2021 and 2020, decreased by \$204,040, as can be seen in Exhibit III. The District's net investment in capital assets is \$3,028,449 and includes its investments in capital assets (e.g., land, buildings, equipment, improvements, and construction in progress) less any debt used to acquire those assets that is still outstanding.

The District uses these capital assets to provide service to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Net position of the District's governmental activities decreased from \$6,918,043 to \$6,714,003. Unrestricted net position - the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements - was \$3,588,014 at June 30, 2021. This decrease in governmental net position was the result of four factors. First, the District's governmental funds expenditures exceeded revenues by \$179,273. Second, the District acquired capital assets in the amount of \$26,295. Third, the District recorded depreciation and other expenses not recognized in the amount of \$150,952. Fourth, due to the required recognition of GASB 68 and 75 related to the District's participation in TRS, the District was required to record and disclose its share of the District's net pension liability and some deferred resource outflows and resource inflows related to the District's plan.

Exhibit III provides a summary of the Assets, Liabilities and Net Position for governmental activities for the years ended June 30, 2021 and 2020, respectively.

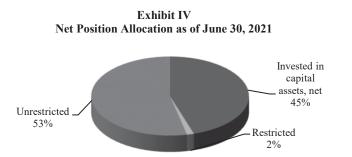

GOVERNMENT-WIDE FINANCIAL ANALYSIS (continued)

GOVERNMENT-WIDE FINANCIAL ANALYSIS (continued)

Net Position (continued)

For the year ended June 30, 2021, the District's total revenues decreased \$202,168, or 6.13%, from the prior year mainly driven by a decrease in property tax revenues, primarily the result of a decrease in assessed property values.

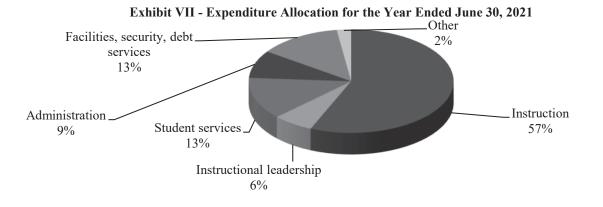

For the year ended June 30, 2021, the District's total expenses decreased by \$39,202, or 1.17%, from the prior year mainly driven by a decrease in instructional resources expenses, primarily the result of decreased expenditures for transportation and textbook adoption in the year ended June 30, 2021.

Other Financial Highlights

For the year ended June 30, 2021, the District's total revenues were \$3,093,783. Approximately 32% of the District's revenue was generated by property taxes, 53% was generated from state aid grants, 14% was generated from other operating grants, 1% was generated from charges for services and the remaining 0% was generated from miscellaneous revenue sources (see Exhibit VI).

For the year ended June 30, 2021, the District's total cost of all programs and services was \$3,297,823. Approximately 57% of the District's governmental activities were dedicated to instructional areas. Direct student services, such as counseling, nursing and transportation services comprised 13% of governmental expenses. The costs to operate facilities, including utilities, security services and debt payments comprised 13% of the cost of all programs (see Exhibit VII).

GOVERNMENT-WIDE FINANCIAL ANALYSIS (continued)

Other Financial Highlights (continued)

The District took actions this year to compensate for some expected increases in cost and avoid the loss of state revenue due to changes in the provisions related to accelerated, intensive, compensatory education (State Comp Ed) and student attendance accounting (Leavers).

- The District's total property tax rate was set at \$1.1764 per hundred dollar valuation in 2021, which decreased from 2020. The tax rate will decrease to \$1.1659 per hundred dollar valuation for the 2021-2022 school year.
- The cost of all governmental activities this year was \$3,297,824 compared to \$3,337,025 last year. However, as shown in the Statement of Activities on Exhibit B-1 (page 16), the amount that our taxpayers ultimately financed for these activities through District taxes was only \$.98 million because some of the costs were paid by those who directly benefited from the programs (\$.03 million) or by other governments and organizations that subsidized certain programs with grants and contributions (\$.43 million) or by State equalization funding (\$1.7 million).
- The District's management and budget managers were conservative in spending allocated resources.

THE DISTRICT'S FUNDS

As the District completed the year, its governmental funds (as presented in the balance sheet on page 18) reported a combined fund balance of \$4,996,630, which is lower than last year's total of \$5,175,904. Included in this year's total change in fund balance is a decrease of \$138,220 in the District's General Fund and a decrease of \$41,054 in the District's Non Major Funds. The primary reason for the decrease is a significant decrease in tax revenues.

Over the course of the year, the Board of Trustees revised the District's budget. The budget amendments involved moving funds from programs that did not need all the resources originally appropriated to them to programs with resource needs and adjusting for changes in planned purchases.

The District's General Fund balance of \$4,879,090 reported on page 18 differs from the General Fund's budgetary fund balance of \$4,501,560 reported in the budgetary comparison schedule on page 53. This is principally due to cost additions and decreased revenues described above.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal 2021 the District had a net of \$4,061,050 invested in a broad range of capital assets, including facilities and equipment for instruction, transportation, athletics, administration, and maintenance. This amount represents a net decrease of \$124,657, or 2.98 percent, from last year.

CAPITAL ASSET AND DEBT ADMINISTRATION (continued)

Capital Assets (continued)

This year's major additions included:

Livestock Trailer	\$	13,900
Mower		12,395
Total Additions	<u>\$</u>	26,295

Debt Administration

At year-end, the District had \$1,032,601 in outstanding long-term debt, related to various Bonds issued by the District. For more information on the District's long-term debt, see Notes H and I in the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District is located in Gray County, Texas. The primary economic activity of Gray County is agriculture and oil and gas activities. The majority of the District's property tax base is derived from agriculture and oil and gas property and activities.

The District's student enrollment decreased as enrollment was 199 at the beginning of fiscal year 2020-2021 and enrollment was 191 at the beginning of 2021-2022.

The District's elected and appointed officials considered many factors when setting the fiscal-year 2021-2022 budget and tax rates. The District approved to decrease the operating tax rate to \$0.92590 per hundred dollar valuation, for the fiscal year 2021-2022. The District's interest and sinking tax rate increased to \$0.24 per hundred dollar valuation for the fiscal year 2021-2022.

These indicators were taken into account when adopting the General Fund budget for fiscal year 2021-2022. Amounts available for appropriation in the General Fund budget are \$2,498,330, and budgeted expenditures are expected to be \$2,793,531. The District has added no new major programs or initiatives to the fiscal year 2021-2022 budget.

For the 2021-2022 year, the District budgeted for a decrease of approximately \$35,000 in Federal funding and an decrease of approximately \$284,500 in State funding.

There are additional funding challenges in the future for all school districts, but with the strong support of the District's citizens and great leadership of the Board of Trustees, the District's management is very confident that the District will remain financially sound.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's business office, at McLean Independent School District, 4th and Rowe Street, PO Box 90, McLean, Texas 79057.

EXHIBIT C-2

MCLEAN INDEPENDENT SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE

STATEMENT OF NET POSITION

JUNE 30, 2021

Total Fund Balances - Governmental Funds	\$ 4,996,630
1 Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$5,996,060 and the accumulated depreciation was (\$1,810,353). In addition, long-term liabilities, including bonds payable, are not due and payable in the current period, and, therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase net position. Note: Beginning Balances related to TRS are NOT included in this amount.	2,964,704
2 Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the 2021 capital outlays and debt principal payments is to increase net position.	194,747
3 Included in the items related to debt is the recognition of the District's proportionate share of the net pension liability required by GASB 68. The net position related to TRS included a deferred resource outflow in the amount of \$370,996, a deferred resource inflow in the amount of \$120,402, and a net pension liability in the amount of \$690,161. This resulted in a decrease in net position.	(439,567)
4 Included in the items related to debt is the recognition of the District's proportionate share of the net OPEB liability required by GASB 75. The net position related to TRS included a deferred resource outflow in the amount of \$589,711, a deferred resource inflow in the amount of \$708,083, and a net OPEB liability in the amount of \$923,268. This resulted in a decrease in net position.	(1,041,640)
5 The 2021 depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net position.	(150,952)
6 Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable revenue from property taxes as revenue, reclassifying the proceeds of bond sales as an increase in bonds payable, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase net position.	190,081
19 Net Position of Governmental Activities	\$ 6,714,003

EXHIBIT C-4

MCLEAN INDEPENDENT SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2021

FOR THE TEAK ENDED JUNE 30, 2021	
Total Net Change in Fund Balances - Governmental Funds	\$ (179,273)
Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of removing the 2021 capital outlays and debt principal payments is to increase the change in net position.	194,747
Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease the change in net position.	(150,952)
Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable revenue from property taxes as revenue, adjusting current year revenue to show the revenue earned from the current year's tax levy, reclassifying the proceeds of bond sales, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase the change in net position.	47,832
GASB 68 required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in ending net position to increase by \$42,200. Contributions made before the measurement date and during the previous fiscal year were also expended and recorded as a reduction in net pension liability. This caused a decrease in the change in net position totaling \$47,515. Finally, the proportionate share of the TRS pension expense on the plan as a whole had to be recorded. The net pension expense decreased the change in net position by \$81,640. The net result is a decrease in the change in net position.	(86,955)
GASB 75 required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in ending net position to increase by \$15,621. Contributions made before the measurement date and during the previous fiscal year were also expended and recorded as a reduction in net pension liability. This caused a decrease in the change in net position totaling \$21,385. Finally, the proportionate share of the TRS pension expense on the plan as a whole had to be recorded. The net pension expense decreased the change in net position by \$23,675. The net result is an increase (decrease) in the change in net position.	(29,439)
Change in Net Position of Governmental Activities	\$ (204,040)

NOTES TO THE FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

McLean Independent School District (the District) is a public educational agency operating under the applicable laws and regulations of the State of Texas. The District is governed by a seven member Board of Trustees (the Board) elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles (GAAP) promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources identified in GASB Statement No. 76, and it complies with the requirements of the appropriate version of Texas Education Agency's *Financial Accountability System Resource Guide* (the Resource Guide) and the requirements of contracts and grants of agencies from which it receives funds.

Pensions. The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits. The fiduciary net position of the Teacher Retirement System of Texas (TRS) Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as you-go plan and all cash is held in a cash account.

The District applies Governmental Accounting Standards Board ("GASB") Statement No. 72, Fair Value Measurement and Application. GASB Statement No. 72 provides guidance for determining a fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements.

A. **REPORTING ENTITY**

The Board is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by GASB Statement No. 14, *The Financial Reporting Entity*. There are no component units included within the reporting entity.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the District's nonfiduciary activities with most of the interfund activities removed. *Governmental activities* include programs supported primarily by taxes, State foundation funds, grants and other intergovernmental revenues. *Business-type activities* include operations that rely to a significant extent on fees and charges for support.

I. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (continued)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (continued)

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The "charges for services" column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include tuition paid by students not residing in the district, school lunch charges, etc. The "grants and contributions" column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If a revenue is not a program revenue, it is a general revenue used to support all of the District's functions. Taxes are always general revenues.

Interfund activities between governmental funds appear as due to/due froms on the Governmental Fund Balance Sheet and as other resources and other uses on the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances. All interfund transactions between governmental funds are eliminated on the government-wide statements. Interfund activities between governmental funds and fiduciary funds remain as due to/due from on the government-wide Statement of Activities.

The fund financial statements provide reports on the financial condition and results of operations for three fund categories – governmental, proprietary and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The District considers some governmental funds major and reports their financial condition and results of operations in a separate column.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues available if they are collectible within 60 days after year end.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION (continued)

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the "susceptible to accrual" concept, that is, when they are both measurable and available. The District considers them "available" if they will be collected within 60 days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

The Proprietary and Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. Custodial Funds utilize the accrual basis of accounting, reporting the fund's change in net assets and liabilities in the fund's Fiduciary Net Position.

The District applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless these pronouncements conflict or contradict GASB pronouncements. With this measurement focus, all assets and all liabilities associated with operations are included on the Statement of Net Position. The fund equity is segregated into invested in capital assets net of related debt, restricted net position, and unrestricted net position.

D. FUND ACCOUNTING

The District reports the following major governmental funds:

1. The General Fund - The General Fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.

Additionally, the District reports the following fund types:

Governmental Funds:

- 1. Special Revenue Funds The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a Special Revenue Fund. Most Federal and some State financial assistance is accounted for in a Special Revenue Fund, and sometimes unused balances must be returned to the grantor at the close of specified project periods.
- 2. Debt Service Fund The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a Debt Service Fund.

I. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (continued)

D. FUND ACCOUNTING (continued)

Fiduciary Funds:

- 1. **Private Purpose Trust Funds** The District accounts for donations which the donor has stipulated that both the principal and the income may be used for purposes that benefit parties outside the District. The District's Private Purpose Trust Fund is a scholarship fund.
- 2. Custodial Funds The District accounts for resources held for others in a custodial capacity in custodial funds. The District's Custodial Fund is the Student Activity Fund. Financial resources for the custodial funds are recorded on the accrual basis of accounting and thus report the change in the fund's assets and liabilities as a change in Net Position of the Fiduciary Fund. The student activity organizations exist with the explicit approval of, and are subject to revocation by, the District's Board of Trustees.

E. FUND BALANCE POLICY

The District reports fund balances for governmental funds in classifications based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The **nonspendable** classification represents assets that will be consumed or "must be maintained intact" and therefore will never convert to cash, such as inventories or supplies and endowments. Provisions of laws, contracts, and grants specify how fund resources can be used in the **restricted** classification. The nature of these two classifications preclude a need for a policy from the Board of Trustees. However, the Board has adopted fund balance policies for the three unrestricted classifications - committed, assigned and unassigned.

From time to time, the Board of Trustees may commit fund balances by a majority vote in a scheduled meeting. The Board's commitment may be modified or rescinded by a majority vote in a scheduled meeting. Board commitments cannot exceed the amount of fund balance that is greater than the sum of nonspendable and restricted fund balance since that practice would commit funds that the District does not have. Commitments may be for facility expansion or renovation, program modifications, wage and salary adjustments, financial cushions (rainy day funds), and other purposes determined by the Board.

The Board of Trustees may delegate authority to specified persons or groups to make assignments of certain fund balances by a majority vote in a scheduled meeting. The Board may modify or rescind its delegation or authority by the same action. The authority to make assignments shall be in effect until modified or rescinded by the Board by majority vote in a scheduled meeting.

When the District incurs expenditures that can be made from either restricted or unrestricted balances, the expenditures should be charged to restricted balances. When the District incurs expenditures that can be made from either committed, assigned or unassigned balances, the expenditures should be charged to committed balances, with any remainders to be charged to unassigned balances.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. FUND BALANCE POLICY (continued)

As of June 30, 2021, the District reports the following governmental fund balance classifications:

Nonspendable	
Prepaid	<u>\$ 20,000</u>
Total Nonspendable	20,000
Restricted	
Other Restriction	635
Retirement of Long-Term Debt	96,905
Total Restricted	97,540
Unassigned	4,879,090
Total Fund Balance	<u>\$ 4,996,630</u>

F. PENSIONS AND OTHER POST RETIREMENT BENEFITS

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

G. OTHER ACCOUNTING POLICIES

- 1. The District reports purchases of supplies as expenditures when they are purchased. Inventories of food commodities are recorded at market values supplied by the Texas Department of Human Services. Although commodities are received at no cost, their fair market value is supplied by the Texas Department of Human Services and recorded as revenues and expenditures in equal amounts. If a material amount of supplies or commodities are on hand at the end of the year, their total cost is recorded as inventory and the fund balance is reserved for the same amount. At June 30, 2021, the amount of supplies and commodities on hand was not material.
- 2. Capital assets, which include land, buildings, building improvements, furniture and equipment, and vehicles, are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

I. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (continued)

G. OTHER ACCOUNTING POLICIES (continued)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings, building improvements, furniture and equipment, and vehicles of the District are depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings	50
Building Improvements	10-25
Vehicles	8-10
Office Equipment	5-20

- 3. In the fund financial statements, governmental funds report fund balance as nonspendable if the amounts cannot be spent because they are either not in spendable form or are legally or contractually required to remain intact. Restrictions of fund balance are for amounts that are restricted to specific purposes by an external entity (creditors, grantors, governmental regulations) or the restriction is imposed by law through constitutional provision or enabling legislation. Commitments of fund balance represent amounts that can only be used for specific purposes pursuant to constraints imposed by the District's Board. Assignments of fund balance are amounts set aside by the District's Superintendent or their designee with the intent they be used for specific purposes.
- 4. In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financial sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

As of June 30, 2021, the District had outstanding long term debt in the net amount of \$1,000,000, and an unamortized premium on bonds of \$32,601.

- 5. When the District incurs an expense for which it may use either restricted or unrestricted assets, it uses the restricted assets first unless unrestricted assets will have to be returned because they were not used.
- 6. The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2021, the District purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

I. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (continued)

G. OTHER ACCOUNTING POLICIES (continued)

- 7. The Data Control Codes refer to the account code structure prescribed by TEA in the *Financial Accountability System Resource Guide*. TEA requires school districts to display these codes in the financial statements filed with the Agency in order to ensure accuracy in building a Statewide database for policy development and funding plans.
- 8. The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.
- 9. The amounts on the statements have been rounded individually; consequently, some columns may not total and some schedules may not agree because of this rounding.
- 10. In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will *not* be recognized as an outflow of resources (expenses/expenditure) until then.
- 11. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and so will *not* be recognized as an inflow of resources (revenue) until that time. The District has one type of item which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Uncollected property taxes which are assumed collectible are reported in this category on the balance sheet for governmental funds. They are not reported in this category on the government wide statement of net position.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY DATA

The Board of Trustees adopts an "appropriated budget" for the General Fund, Debt Service Fund and the Child Nutrition Program. The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit G-1, the Child Nutrition Program Budget report is in Exhibit J-2 and the Debt Service Fund is in Exhibit J-3.

The following procedures are followed in establishing the budgetary data reflected in the general-purpose financial statements:

- 1. Prior to June 20 the District prepares a budget for the next succeeding fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days' public notice of the meeting must be given.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (continued)

A. **BUDGETARY DATA** (continued)

- 3. Prior to July 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Because the District has a policy of careful budgetary control, several amendments were necessary during the year. The following amendments were considered by management to be significant:
 - Total General Fund budget amendments to function 11 (Instruction) amounted to an increase of \$40,000.
 - Total General Fund budget amendments to object 8913 (Extraordinary Item -Use) amounted to an increase of \$479,000.
 - Total General Fund budget amendments to object 7919 (Extraordinary Item -Resource) amounted to an increase of \$420,000.
 - Total General Fund budget amendments to object 5800 (State Program Revenues) amounted to an increase of \$270,000.
- 4. Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end.

B. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

The District's management attempts to budget expenditures as accurately as possible during the budget process and to make necessary budget amendments throughout the year as needed. However, sometimes expenditures in the functional categories will exceed budgeted estimates. Actual expenditures on the fund financial statements do not exceed the final amended budget.

C. DEFICIT FUND EQUITY

There were no fund deficits during the year ended June 30, 2021.

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

A. DEPOSITS AND INVESTMENTS

District Policies and Legal and Contractual Provisions Governing Deposits

<u>Custodial Credit Risk for Deposits</u> - State law requires governmental entities to contract with financial institutions in which funds will be deposited to secure those deposits with insurance or pledged securities with a fair value equaling or exceeding the amount on deposit at the end of each business day. The pledged securities must be in the name of the governmental entity and held by the entity or its agent. Since the District complies with this law, it has no custodial credit risk for deposits.

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (continued)

A. **DEPOSITS AND INVESTMENTS** (continued)

Foreign Currency Risk - The District limits the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit by not allowing any deposits denominated in a foreign currency.

Compliance with the Public Funds Investment Act

The **Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. Among other things, it requires a governmental entity to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit.

Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas and its agencies, (2) guaranteed or secured certificates of deposit issued by state and national banks domiciled in Texas, (3) obligations of states, agencies, counties, cities and other political subdivisions of any state having been rated as to investment quality not less than an "A", (4) no load money market funds with a weighted average maturity of 90 days or less, (5) fully collateralized repurchase agreements, (6) commercial paper having a stated maturity of 270 days or less from the date of issuance and is not rated less than A-1 or P-1 by two nationally recognized credit rating agencies OR one nationally recognized credit agency and is fully secured by an irrevocable letter of credit, (7) secured corporate bonds rated not lower than "AA-" or the equivalent, (8) public funds investment pools, and (9) guaranteed investment contracts for bond proceeds investment only, with a defined termination date and secured by U.S. Government direct or agency obligations approved by the Texas Public Funds Investment Act in an amount equal to the bond proceeds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

As of June 30, 2021, the District had the following cash and investments.

			Investment Maturities (in years)							
Investment Type	Fair V	alue	Less 7	<u>[han 1]</u>		1-5		6-10	N	More Than 10
Cash and Cash Equivalents Certificates of Deposit	\$ 1,85	6,606	\$ 1,8	356,606	\$	-	\$		- \$	-
(included in Investments) Investment Pools - TexSTAR	,	3,871 <u>4,480</u>		783,871 574,480		-		-	- 	-
Total	<u>\$ 5,21</u>	4,9 <u>57</u>	<u>\$ 5,2</u>	214,957	\$		<u>\$</u>		<u> </u>	

Additional policies and contractual provisions governing deposits and investments for the District are specified below:

<u>Credit Risk</u> - To limit the risk that an issuer or other counterparty to an investment will not fulfill its obligations the District limits investments to public funds investment pools, certificates of deposit, and savings accounts with its depository bank.

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (continued)

A. **DEPOSITS AND INVESTMENTS** (continued)

<u>Custodial Credit Risk for Investments</u> - To limit the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in possession of an outside party the District requires counterparties to register the securities in the name of the District and hand them over to the District or its designated agent. This includes securities in securities are in the District's name and held by the District or its agent.

<u>Concentration of Credit Risk</u> - To limit the risk of loss attributed to the magnitude of a government's investment in a single issuer, the District requires the depository bank to pledge securities held by the District's agent bank in the District's name sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance.

Interest Rate Risk - To limit the risk that changes in interest rates will adversely affect the fair value of investments, the District has established weighted average maturity limits and diversification standards.

Throughout the year and as of June 30, 2021, the District's bank deposits were fully insured by FDIC insurance coverage and pledged securities held by the District's bank in the District's name. As of June 30, 2021, the District's bank deposits consisted of the following collateral coverage:

Total bank deposits	\$ 4,640,477
FDIC insurance coverage	(250,000)
Fair market value of pledged securities	 (5,532,828)
Over collateralized deposits	\$ (1,142,351)

The District's investments as of June 30, 2021 are shown below:

Name	Carr	ying Amount	Market Value	Credit Rating
Cash in Bank	\$	1,856,606	\$ 1,856,606	n/a
Certificate of Deposit in Bank				
(included in Investments)		2,783,871	2,783,871	n/a
Investment Pool - TexSTAR		574,480	574,480	AAA
Totals	\$	5,214,957	\$ <u>5,214,957</u>	

B. PROPERTY TAXES

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during the school fiscal year or during a 60-day period after the close of the school fiscal year.

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (continued)

C. DELINQUENT TAXES RECEIVABLE

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible tax receivables within the General and Debt Service Funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

D. INTERFUND BALANCES AND TRANSFERS

Interfund balances at June 30, 2021, consisted of the following amounts:

Due to General Fund from:	
Non-Major Governmental Funds	\$ 27,675
Total Due to General Fund	\$ 27,675
Due to Debt Service Fund from:	
General Fund	\$ 6,385
Total Due to Debt Service Fund	\$ 6,385

Transfers are used to move revenues from the General Fund to supplement various Special Revenue Funds. Transfers for the year ended June 30, 2021 were as follows:

Transfers from General Fund to:	
Child Nutrition Program Fund	\$ 23,483
Total Transfers from General Fund	\$ 23,483

E. DEFERRED INFLOWS OF RESOURCES

Deferred inflows of resources in the fund financial statements excluding amounts related to TRS (See Notes J and K) at year-end consisted of the following:

	Debt						
	General Fund	Service Fund	Total				
Unavailable revenue - property taxes	<u>\$ 156,461</u>	\$ 33,620	<u>\$ 190,081</u>				

F. DISAGGREGATION OF RECEIVABLES AND PAYABLES

Receivables in the Fund Financial Statements at June 30, 2021, were as follows:

		Property Taxes		ue from her Govts		e from <u>er Funds</u>	Ot	her		Total eceivables
Governmental Activities:	¢	174 704	¢	127.067	¢	27 (75	¢		¢	(10.12)
General Fund	\$	174,794	\$	437,967	\$	27,675	\$	-	\$	640,436
Non-Major Governmental Funds	<u>ф</u>	37,311	¢	28,216	¢	6,385	<u>ф</u>		<u>ф</u>	71,912
Total - Governmental Activities	2	212,105	2	466,183	2	34,060	3		2	712,348
Amounts not scheduled for collection										
during the subsequent year	\$	(22,024)	\$		\$		\$		\$	(22,024)

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (continued)

F. DISAGGREGATION OF RECEIVABLES AND PAYABLES (continued)

Payables in the Fund Financial Statements at June 30, 2021, were as follows:

	Accounts		Salaries and		Due to			Total
	P	<u>ayable</u>	_	Benefits	Ot	<u>her Funds</u>	Other	Payables
Governmental Activities:								
General Fund	\$	2,632	\$	172,353	\$	6,385	\$ 452,162	\$ 633,532
Non-Major Governmental Funds		-		9,594		27,675		37,269
Total - Governmental Activities	\$	2,632	\$	181,947	\$	34,060	\$ 452,162	<u>\$ 670,801</u>

G. CAPITAL ASSET ACTIVITY

Capital asset activity for the District for the year ended June 30, 2021, was as follows:

Governmental Activities:	Beginning Balance	Additions	Retirements	Ending Balance
Capital assets, not being depreciated: Land	<u>\$ 16,500</u>	<u>\$</u>	<u>\$</u>	<u>\$ 16,500</u>
Total capital assets not being depreciated	16,500			16,500
Capital assets, being depreciated:				
Building and improvements	4,974,775	-	-	4,974,775
Furniture and equipment	315,486	-	-	315,486
Vehicles	689,299	26.295	4,000	711,594
Total capital assets being depreciated	5,979,560	26,295	4,000	6,001,855
Less accumulated depreciation for:				
Building and improvements	1,152,121	106,147	-	1,258,268
Furniture and equipment	198,422	13,251	-	211,673
Vehicles	459,810	31,554	4,000	487,364
Total accumulated depreciation	1,810,353	150,952	4,000	1,957,305
Total capital assets being depreciated, net	4,169,207	(124,657)		4,044,550
Governmental activities capital assets, net	<u>\$ 4,185,707</u>	<u>\$ (124,657)</u>	<u>\$ </u>	<u>\$ 4,061,050</u>

Depreciation expense was charged to governmental functions as follows:

Instruction	\$ 71,694
Student (Pupil) Transportation	32,947
Food Service	1,440
Co-curricular/Extracurricular Activities	22,832
General Administration	6,208
Plant Maintenance and Operations	15,831
Total Depreciation Expense	<u>\$ 150,952</u>

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (continued)

H. BONDS PAYABLE

Bonded indebtedness of the District is reflected in the General Long-Term Debt Account Group. Current requirements for principal and interest expenditures are accounted for in the Debt Service Fund. Interest is payable on the bonds semiannually with interest rates ranging from 2.00% to 4.00%. The bonds mature through February 15, 2027.

A summary of changes in general long-term liabilities for the year ended June 30, 2021 is as follows:

	Average Interest Rate <u>Payable</u>	Amounts Originally <u>Issued</u>	Interest Current Year	Amounts Outstanding 7/1/2019	Issued & Accreted Interest	Outstanding <u>Retired</u> <u>6/30/2020</u>
2011 Unlimited Tax Refunding Bond	2.00% to 4.00% S	\$ 2,445,000 \$	46,600 \$	1,165,000	\$-\$	165,000 \$ 1,000,000
Unamortized (Discount) Premium	n N/A	87,891 _	<u> </u>	38,528	<u> </u>	5,927 32,601
Total Noncurrent Liabilities		<u>\$</u>	<u>46,600</u> <u>\$</u>	1,203,528	<u>s -</u> <u>s</u>	<u>170,927</u> <u>\$ 1,032,601</u>

There are a number of limitations and restrictions contained in the general obligation bond indenture. Management has indicated that the District is in compliance with all significant limitations and restrictions as of June 30, 2021.

I. DEBT SERVICE REQUIREMENTS - BONDS PAYABLE

Debt service requirements for bonds are as follows:

Year ended June 30,	 Principal	 Interest	 Total
2022	\$ 175,000	\$ 36,500	\$ 211,500
2023	180,000	29,400	209,400
2024	190,000	22,000	212,000
2025	190,000	14,400	204,400
2026	205,000	6,500	211,500
2027	 60,000	 1,200	 61,200
Total Bonds Payable	\$ 1,000,000	\$ 110,000	\$ 1,110,000
Total Noncurrent			
Liabilities	\$ 1,000,000	\$ 110,000	\$ 1,100,000

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (continued)

I. DEBT SERVICE REQUIREMENTS - BONDS PAYABLE (continued)

Year ended June 30,	Principal	 Interest	 Total
2022	\$ 5,927	\$ -	\$ 5,927
2023	5,927	-	5,927
2024	5,927	-	5,927
2025	5,927	-	5,927
2026	5,927	-	5,927
2027	 2,966	 	 2,966
Total Bonds Payable	\$ 32,601	\$ -	\$ 32,601
Total Noncurrent			
Liabilities	\$ 32,601	\$ 	\$ 32,601

Debt service requirements for amortization are as follows:

J. DEFINED BENEFIT PENSION PLAN

Plan Description. The District participates in a cost-sharing multiple-employer defined benefit pension plan (the plan) that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). The plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position. Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued report that may be obtained on the Internet at http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Benefits Provided. TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension benefits are established or amended under the authority of the Texas Constitution, Article XVI, Section 67 and by the Legislature in the Texas Government Code, Title 8, Subtitle C. The Board of Trustees does not have the authority to establish or amend benefits. State law requires the plan to be actuarially sound in order for the Legislature to consider a benefit enhancement, such as supplemental payment to the retirees. In May 2019, the 86th Texas Legislature approved the TRS Pension Reform Bill (SB12) that provides for gradual contribution increases from the state, participating employers and active employees to make the pension fund actuarially sound. These increases immediately made the pension fund actuarially sound and the legislature approved funding for a 13th check. All eligible members retired as of December 31, 2018 received an extra annuity check in September 2019 in either the matching amount of their monthly annuity payment or \$2,000, whichever was less.

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (continued)

J. DEFINED BENEFIT PENSION PLAN (continued)

Contributions. Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. The 83rd Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2014 through 2017. The 85th Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2018 and 2019. SB 12 of the 86th Texas Legislature set higher contribution rates for fiscal years 2020 and 2021. Beginning September 1, 2019, all employers are required to pay the public education employer contribution of 1.5%. This "surcharge" was previously only charged to employers not participating in social security.

	Contributions	
	Required and	
		Made
Member (Employee)	\$	127,433
Non-employer contributing entity (State)		100,921
District		50,228

Contribution rates for Plan fiscal year (September to August) 2020 and 2021 follow:

	Contribution Rates		
	Plan Fiscal Year		
	2020	2021	
Member	7.7%	7.7%	
Non-Employer Contributing Entity (State)	7.5%	7.5%	
Employer	7.5%	7.5%	

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers including public schools are required to pay the employer contribution rate in the following instances:

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (continued)

J. DEFINED BENEFIT PENSION PLAN (continued)

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During the new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources or a privately sponsored source.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to:

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- Employers must contribute 1.5% of the members' salary ("Public Education Employer Surcharge").

Actuarial Assumptions.

Roll Forward - A change was made in the measurement date of the total pension liability for the 2020 measurement year. The actuarial valuation was performed as of August 31, 2019. Update procedures were used to roll forward the total pension liability to August 31, 2020.

The total pension liability is determined by an annual actuarial valuation. The actuarial methods and assumptions used to determine the total pension liability were based on the results of an experience study for the three-year period ending August 31, 2017. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables, with full generational projection using the ultimate improvement rates from the most recently published projection scale. The active mortality rates were based on 90% of the RP-2014 Employee Mortality Tables for males and females, also with full generational mortality.

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (continued)

J. DEFINED BENEFIT PENSION PLAN (continued)

The following table discloses the assumptions that were applied to this measurement period.

Valuation Date Actuarial Cost Method	August 31, 2019 (total pension liability rolled forward from valuation date to measurement date of August 31, 2020) Individual Entry Age Normal actuarial
Actuariar Cost Method	cost method
Asset Valuation Method	Market Value
Actuarial Assumptions:	
Single Discount Rate	7.25%
Long-term Expected Return	7.25%
Municipal Bond Rate *	2.33%
Last year ending August 31 in	
projection period (100 years)	2119
Inflation	2.30%
Salary Increases	3.05% to 9.05% including inflation
Ad Hoc Post Employment	
Benefit Changes	None

* The municipal bond rate used is 2.33% as of August 2020 (i.e. the rate closest to but not later than the Measurement Date). The source for the rate is the Fixed Income Market Data / Yield Curve / Data Municipal bond with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index."

The actuarial assumptions used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2019. For a full description of these assumptions please see the actuarial valuation report dated November 14, 2019.

Discount Rate. The single discount rate used to measure the total pension liability was 7.25%. The single discount rate was based on the expected rate of return on pension plan investments of 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the statutorily required rates set by the Legislature during the 2019 legislative session. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payment of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 7.25%. The long-term expected rate of return on pension plan investments is return on pension plan investments is rate of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2019 are summarized below:

net pension liability	\$	1,064,216	\$ 690,161	\$ 386,250

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (continued)

J. DEFINED BENEFIT PENSION PLAN (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2021, the District reported a liability of \$690,161 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability State's proportionate share that is associated with the District	\$ 690,161 1,310,011
Total	\$ 2,000,172

The net pension liability was measured as of August 31, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2019 thru August 31, 2020.

At August 31, 2020, the employer's proportion of the collective net pension liability was 0.0012886245%, which was an increase of 0.0003257148% from its proportion measured as of August 31, 2019.

Changes Since the Prior Actuarial Valuation. Assumptions, methods, and plan changes which are specific to the Pension Trust Fund were updated from the prior year's report. The actuarial assumptions and methods are the same as used in determining the prior year's Net Pension Liability.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the measurement period June 30, 2021, the District recognized pension expense of \$286,720 and revenue of \$157,565 for support provided by the State in the Government Wide Statement of Activities.

At June 30, 2021, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	01	Deferred utflows of esources	Deferred Inflows of Resources
Differences between expected and			
actual actuarial experience	\$	1,260	\$ 19,261
Changes in actuarial assumptions		160,142	68,091
Difference between projected and actual			
investment earnings		13,972	-
Changes in proportion and difference between the employer's contributions and the			
proportionate share of contributions		153,422	33,050
Contributions paid to TRS subsequent to the measurement date		42,200	
Total	\$	370,996	\$ 120,402

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (continued)

J. DEFINED BENEFIT PENSION PLAN (continued)

The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30	
2022	\$ 52,793
2023	52,299
2024	48,189
2025	32,564
2026	16,001
Thereafter	6,548

K. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS

Plan Description. The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.

OPEB Plan Fiduciary Net Position. Detail information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <u>http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR</u>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Benefits Provided. TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension system. Eligible non-Medicare retirees and their dependents may pay premiums to participate in the high-deductible health plans. Eligible Non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system.

The General Appropriations Act passed by the 86th Legislature included funding to maintain TRS Care premiums at their current level through 2021. The 86th legislature also passed SB 1682 which requires TRS to establish a contingency reserve in the TRS-Care fund equal to 60 days of expenditures. The premium rates for retirees are presented in the following table:

TRS-Care Monthly Premium Rates					
		Medicare		Non-Medicare	
Retiree or Surviving Spouse	\$	135	\$	200	
Retiree and Spouse		529		689	
Retiree or Surviving Spouse and Children		468		408	
Retiree and Family		1,020		999	

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (continued)

K. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS (continued)

Contributions. Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, Section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is .65% of salary. Section 1575.204 establishes a public school contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the employer. The actual public school contribution rate is prescribed by the Legislature in the General Appropriations Act which is 0.75% of each active employee's pay for fiscal year 2020. The following table shows contributions to the TRS-Care plan by type of contributor.

	Contributions	
	Required and	
		Made
Member (Employee)	\$	10,757
Non-employer contributing entity (State)		24,805
District		18,188

Contribution rates for Plan fiscal year (September to August) 2020 and 2021 follow:

	Contribut	ion Rates
	Plan Fis	cal Year
	2020	2021
Active Employee	0.65%	0.65%
Non-Employer Contributing Entity (State)	1.25%	1.25%
Employer	0.75%	0.75%
Federal/private Funding Remitted by Employers	1.25%	1.25%

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When employers hire a TRS retiree, they are required to pay to TRS-Care, a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$230.8 million in fiscal year 2020.

Actuarial Assumptions. The total OPEB liability in the August 31, 2019 actuarial valuation was rolled forward to August 31, 2020. The actuarial valuation was determined using the following actuarial assumptions:

The following assumptions and other inputs used for members of TRS-Care are identical to the assumptions used in the August 31, 2019 TRS pension actuarial valuation that was rolled forward to August 31, 2020:

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (continued)

K. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS (continued)

Rates of Mortality	General Inflation
Rates of Retirement	Wage Inflation
Rates of Termination	Expected Payroll Growth
Rates of Disability Incidence	· ·

Additional Actuarial Methods and Assumptions:

Valuation Date	August 31, 2019 Rolled Forward to August 31, 2020
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.30%
Single Discount Rate	2.33% as of August 31, 2020
Salary Increases	3.05% to 9.05%, including inflation
Demographic Assumptions	The rates of mortality, retirement, termination and disability incidence are identical to the assumptions used to value the pension
	liabilities of the Teachers Retirement System of Texas (TRS). The demographic
	assumptions were developed in the experience
	study performed for TRS for the period ending
	August 31, 2017.
Health Care Trend Rates	Initial medical trend rates of 9.00% for
	Medicare retirees and 7.30% for non-
	Medicare retirees. Initial prescription drug
	trend rats of 9.00% for all retirees.
Election Rates	Normal Retirement: 65%
	participation prior to age 65 and
	40% participation after age 65. 25%
	of pre-65 retireees are assumed to
	discontinue coverage at age 65.
Aging Factors	Based on Plan Specific Experience
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
	0 5

The impact of the Cadillac Tax that is returning in fiscal year 2023, has been calculated as a portion of the trend assumption. Assumptions and methods used to determine the impact of the Cadillac Tax include:

- 2018 thresholds of \$850/\$2,292 were indexed annually by 2.30 percent.
- Premium data submitted was not adjusted for permissible exclusions to the Cadillac Tax.
- There were no special adjustments to the dollar limit other than those permissible for non-Medicare retirees over 55.

Results indicate that the value of the excise tax would be reasonably represented by a 25-basis point addition to the long-term trend rate assumption.

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (continued)

K. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS (continued)

Discount Rate. A single discount rate of 2.33% was used to measure the total OPEB liability. Because the plan is essentially a "pay-as-you-go" plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the Net OPEB Liability:

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (2.33%) in measuring the Net OPEB Liability.

		Current	
	1%	Discount	1%
District's annual time 1 shares of the	Decrease 1.33%	Rate 2.33%	Increase 3.33%
District's proportional share of the net OPEB liability	\$ 1,107,919	\$ 923,268	\$ 777,420

Healthcare Cost Trend Rates Sensitivity Analysis - The following presents the net OPEB liability of the plan using the assumed healthcare cost trend rate, as well as what the net OPEB liability would be if it were calculated using a trend rate that is one-percentage point lower or one-percentage point higher than the assumed healthcare cost trend rate.

			Current	
	1%	H	Iealthcare	1%
	 Decrease	Cos	t Trend Rate	 Increase
District's proportional share of the				
net OPEB liability	\$ 754,191	\$	923,268	\$ 1,148,453

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs. At June 30, 2021, the District reported a liability of \$923,268 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the collective net OPEB liability State's proportionate share that is associated with the District	\$	923,268 1,240,650
Total	<u>\$</u>	2,163,918

The Net OPEB Liability was measured as of August 31, 2020 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer's proportion of the Net OPEB Liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2019 thru August 31, 2020.

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (continued)

K. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS (continued)

At August 31, 2020 the employer's proportion of the collective Net OPEB Liability was 0.0024287241%, which was an increase of 0.0007589182% from its proportion measured as of August 31, 2019.

Changes in Actuarial Assumptions Since the Prior Actuarial Valuation – The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

- The discount rate changed from 2.63% as of August 31, 2019 to 2.33% as of August 31, 2020.
- The participation rate assumption for employees who retire after the age of 65 was lowered from 50 percent to 40 percent.
- The ultimate health care trend assumption was lowered to reflect the repeal of the excise (Cadillac) tax on high-cost employer health plans.

Changes in Benefit Terms: There were no changes in benefit terms since the prior measurement date.

For the year ended June 30, 2021, the District recognized OPEB expense of \$36,445 and revenue of \$(8,615) for support provided by the State.

At June 30, 2021, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	Deferred Outflows of Resources			Deferred Inflows of Resources
Differences between expected and				
actual actuarial economic experience	\$	48,342	\$	422,535
Changes in actuarial assumptions		56,946		253,534
Difference between projected and actual				
investment earnings		300		-
Changes in proportion and difference between				
the employer's contributions and the				
proportionate share of contributions		468,502		32,014
Contributions paid to TRS subsequent to the				
measurement date		15,621		<u> </u>
Total	\$	589,711	\$	708.083

The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in OPEB expense as follows:

Year ended		
August 31	_	
2022	\$	(39,965
2023		(40,005
2024		(40,028
2025		(40,022
2026		(15,361
Thereafter		41,388

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (continued)

L. HEALTH CARE COVERAGE

During the year ended June 30, 2021, the District provided medical benefits coverage (the Plan) to its employees through the TRS. The Plan was created and is operated under the provisions of the Texas Active School Employees Uniform Group Benefits Act (H.B. 3343) enacted by the 77th Legislature. H.B. 3343 established a new statewide health coverage program for public school employees and their dependents. The TRS began administering the Plan, known as the TRS-ACTIVECARE, as of September 1, 2003. The Plan includes employees of most small to mid-size districts, charter schools, education service centers, and certain other employees.

Participants in the Plan can choose from several different benefit options and must meet certain eligibility requirements. Currently, participants must either be an active, contributing, TRS member or must be employed for 10 or more hours each week to be eligible for coverage under the Plan.

Each member district is billed monthly based upon the number of employees participating in the Plan. The District contributed \$300 per month per full time employee to the Plan. For the year ended June 30, 2021, total payments to the Plan by the District were \$194,678, of which \$97,377 was paid by the District's employees, resulting in a net cost to the District for health benefit coverage of \$102,300.

According to the Plan's administrator, Plan participants retain the risk associated with the Plan, with no risks being transferred or assumed by the TRS, member districts, or by the State of Texas. Additional information pertaining to the Plan can be obtained by contacting the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701, by calling the TRS at 1-800-223-8778, or by downloading information from the TRS website at www.trs.state.tx.us.

M. ACCOUNTING FOR EMPLOYEE BENEFITS - ON-BEHALF PAYMENTS

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. These on-behalf payments must be recognized as equal revenues and expenditures/expenses by the District. For the years ending June 30, 2021, 2020, and 2019, the District's portion of subsidy reimbursements received by TRS and recognized as equal expenditures/expenses was \$7,479, \$7,147, and \$5,901, respectively. The plan covering these retired employees is the Teacher Retirement System of Texas, and these on-behalf payments are being made by the federal government to the State of Texas as a pass through grant to the Texas Education Agency on behalf of the District.

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (continued)

N. DUE FROM STATE AGENCIES

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. All federal grants shown below are passed through the TEA and are reported on the combined financial statements as Due from State Agencies.

Amounts due from state agencies at year end consisted of the following:

Fund	 State Entitlements	 Federal Grants	 Total
General Fund	\$ 437,967	\$ -	\$ 437,967
Non-Major			
Governmental Funds	 189	 28,027	 28,216
Total	\$ 438,156	\$ 28,027	\$ 466,183

0. REVENUE FROM LOCAL AND INTERMEDIATE SOURCES

During the current year, revenues from local and intermediate sources consisted of the following:

	Ger	eral Fund	 Funds		Total
Property taxes	\$	762,330	\$ 165,554	\$	927,884
Penalties, interest and other		9,538	1,410		10,948
Investment income		29,789	870		30,659
Food sales		-	4,712		4,712
Co-curricular student activities		11,609	-		11,609
Other		19,968	 		19,968
Total	<u>\$</u>	833,234	\$ 172,546	\$	1,005,780

P. LITIGATION AND CONTINGENCIES

At June 30, 2021, the District had no known or threatened pending litigation that would materially affect the District's financial condition.

The District participates in numerous state and federal grant programs that are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any receivable at June 30, 2021 may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (continued)

Q. JOINT VENTURE-SHARED SERVICE ARRANGEMENTS

The District participates in a shared services arrangement for Special Education. The District has neither a joint ownership interest in fixed assets purchased by the fiscal agent, Shamrock ISD (242902), nor a net equity interest in the fiscal agent. The District accounts for its share of the revenues and expenditures of the shared service arrangement in the General Fund. The fiscal agent is responsible for all financial activities of the shared service arrangement. The District contributed \$52,215 to the shared services agreement during the current year.

R. GENERAL FUND FEDERAL SOURCE REVENUE

Federally financed programs are generally accounted for in the Special Revenue Funds of the District, except for indirect and other costs charged to federal programs which are accounted for in the General Fund as prescribed by the TEA. The District recognized in the General Fund such revenues for the year ended June 30, 2021, from various federal sources as follows:

Program or Source	CFDA Number	 Amount
SHARS reimbursements	93.774	\$ 37,232

S. PROPERTY PROGRAM

During the year ended June 30, 2021, the District participated in the TASB Risk Management Fund's (the "Fund") Property Program with coverage in: crime; equipment breakdown; and property. The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

The Fund purchases stop loss coverage for protection against catastrophic and larger than anticipated claims for the Property Program. The terms and limits of the stop loss program vary by line of coverage. The Fund uses the services of an independent actuary to determine the adequacy of reserves and fully funds those reserves. For the year ended June 30, 2021, the Fund anticipates the District has no additional liability beyond the contractual obligation for payment of contributions.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on June 30. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of June 30, 2021, which is the most current report provided to the public, are available at the TASB offices and have been filed with the Texas Department of Insurance in Austin.

T. SERVICE CONTRACT WITH REGION 16 EDUCATION SERVICE CENTER

The District has contracted with Region 16 Education Service Center (Region 16) to perform certain accounting duties for the District for the 2021-2022 fiscal year. The contracted amount of \$27,700 includes the reconciliation of the general fund bank accounts; review of accounting records including balance sheet accounts, revenue and expense accounts, due to/due from accounts, journal and budget entries and payroll balancing; and assisting with budget preparation, journal entries and payroll. The contract with Region 16 may be renewed annually. The District also pays Region 16 for the use of its accounting software, approximately \$14,000 annually. Also, the District pays Region 16 consulting services for certain compliance and administrative services, approximately \$138,000 annually.

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (continued)

U. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In January 2017, the GASB issued Statement 84, *Fiduciary Activities*. The requirements of this identifying Statement will enhance consistency and comparability by (1) establishing specific criteria for activities that should be reported as fiduciary activities and (2) clarifying whether and how business-type should report their fiduciary activities. Greater consistency and comparability enhances the value provided by the information reported in the financial statements for assessing government accountability and stewardship. In May 2020, GASB issued Statement 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*, which deferred the effective date of GASB Statement 84 for entities that have not yet issued financial statements or made financial statements available for issuance by one year. The new effective date for GASB Statement 84 is reporting periods beginning after December 15, 2019. Early application is encouraged. The District adopted GASB Statement 84 effective July 1, 2020. See Note V, Prior Period Adjustments, for the effect of this adoption.

In June 2017 the GASB issued Statement 87, Leases. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. In May 2020, GASB issued Statement 95, Postponement of the Effective Dates of Certain Authoritative Guidance, which deferred the effective date of GASB Statement 87 for entities that have not yet issued financial statements or made financial statements available for issuance by one year. The new effective date for GASB Statement 87 is fiscal years beginning after June 15, 2021. Earlier application is encouraged. Leases should be recognized and measured using the facts and circumstances that exist at the beginning of the period of implementation or, if applied to earlier periods, the beginning of the earliest period restated. However, lessors should not restate the assets underlying their existing sales-type or direct financing leases. Any residual assets for those leases become the carrying values of the underlying assets. Management is currently evaluating the impact of the adoption of Statement 87 on the District's financial statements.

V. PRIOR PERIOD ADJUSTMENTS

Due to the required implementation of new GASB 84, *Fiduciary Activities*, during 2021, the District was required to record and disclose the Net Position in the District's Custodial Fund. During the year ended June 30, 2021 the District recorded a prior period adjustment of \$35,325 (see Exhibit E-2) related to GASB 84. The beginning restated net position was \$35,325.

W. SUBSEQUENT EVENTS

Management of the District has evaluated subsequent events through November 15, 2021, the date the financial statements were available to be issued.

REPORTS ON COMPLIANCE AND INTERNAL CONTROL

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

Board of Trustees McLean Independent School District McLean, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of **McLean Independent School District** (the District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 15, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
