UNMODIFIED OPINION ON BASIC FINANCIAL STATEMENTS ACCOMPANIED BY REQUIRED SUPPLEMENTARY INFORMATION AND OTHER SUPPLEMENTARY INFORMATION

Independent Auditor's Report

Board of Trustees McLean Independent School District McLean, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of **McLean Independent School District** (the District), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Board of Trustees McLean Independent School District Page 2

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note I the financial statements, in 2015, the District adopted new accounting guidance prescribed by Governmental Accounting Standards Board Statement No. 68 – *Accounting and Reporting for Pensions* (GASB 68) for its pension plan – a multiple-employer, cost-sharing, defined benefit pension plan that has a special funding situation. Because GASB 68 implements new measurement criteria and reporting provisions, significant information has been added to the Government Wide Statements. Exhibit A-1 discloses the District's Net Pension Liability and some deferred resource outflows and deferred resource inflows related to the District's pension plan. Exhibit B-1 discloses the adjustment to the District's Beginning Net Position. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Budgetary Comparison Information, Schedule of the District's Proportionate Share of the Net Pension Liability and the Schedule of District Contributions to TRS on pages 5 through 13, page 49, page 50 and page 51 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Board of Trustees McLean Independent School District Page 3

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The combining and individual nonmajor fund financial statements and the TEA required schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 9, 2015, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

In this section of the Annual Financial and Compliance Report, we, the managers of McLean Independent School District (the District), discuss and analyze the District's financial performance for the fiscal year ended June 30, 2015. Please read it in conjunction with the District's financial statements which follow this section.

FINANCIAL HIGHLIGHTS

- The District's total combined net position was \$6,375,221 at June 30, 2015.
- The District's governmental funds financial statements reported combined ending fund balance of \$4,269,164. This balance consists of \$4,142,879 in the General Fund of which \$2,458,034 is assigned or committed and \$1,684,845 is unassigned and available for spending at the District's discretion. Restricted fund balance totals \$126,285 and is used by the Debt Service Fund.
- For the year ended June 30, 2015, total revenue from all sources was \$2,958,759. Program revenues accounted for \$271,315 of total revenues. General revenues and special items accounted for \$2,821,947.
- The General Fund had \$2,452,123 in revenues, which primarily consisted of state aid and property taxes and \$2,423,820 in expenditures which resulted in an increase to the fund balance of \$28,303.

USING THIS ANNUAL REPORT

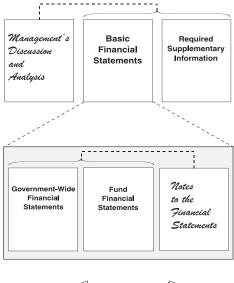

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Position and the Statement of Activities (on pages 15 and 16). These provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements (starting on page 18) report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget.

The notes to the financial statements (starting on page 24) provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements. The notes provide additional information that is essential in fully understanding the data provided in the government-wide and fund financial statements.

The combining statements for non-major funds contain even more information about the District's individual funds. These are not required by TEA. The section labeled TEA Required Schedules contain data used by monitoring or regulatory agencies for assurance that the District is using funds supplied in compliance with the terms of grants.

Exhibit I - Required Components of the District's Annual Financial Report

USING THIS ANNUAL REPORT (continued)

Exhibit II summarizes the major features of the District's financial statements, including the portion of the District's government they cover and the types of information they contain. The remainder of this section explains the structure and contents of each of the statements.

USING THIS ANNUAL REPORT (continued)

Reporting the District as a Whole

The Statement of Net Position and the Statement of Activities

The analysis of the District's overall financial condition and operations begins on page 15. Its primary purpose is to show whether the District is better off or worse off as a result of the year's activities. The Statement of Net Position includes all the District's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the District's operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The District's revenues are divided into those provided by outside parties who share the costs of some programs, such as tuition received from students from outside the district and grants provided by the U.S. Department of Education to assist children with disabilities or from disadvantaged backgrounds (program revenues), and revenues provided by the taxpayers or by TEA in equalization funding processes (general revenues). All the District's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report the District's net position and changes in net position. The District's net position (the difference between assets and liabilities) provides one measure of the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the District, however, you should consider nonfinancial factors as well, such as changes in the District's average daily attendance or its property tax base and the condition of the District's facilities.

In the Statement of Net Position and the Statement of Activities, we present the District with only one kind of activity:

Governmental activities - Most of the District's basic services are reported here, including the instruction, counseling, co-curricular activities, food services, transportation, maintenance, community services, and general administration. Property taxes, tuition, fees, and state and federal grants finance most of these activities.

Reporting the District's Most Significant Funds

Fund Financial Statements

The governmental fund financial statements begin on page 18 and provide detailed information about the most significant funds, not the District as a whole. Laws and contracts require the District to establish some funds, such as grants received under the No Child Left Behind Act from the U.S. Department of Education. The District's administration establishes many other funds to help it control and manage money for particular purposes (like campus activities). The District's governmental fund uses the following accounting approaches:

• Governmental funds - Most of the District's basic services are reported in governmental funds. These use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation schedules following each of the fund financial statements.

USING THIS ANNUAL REPORT (continued)

Reporting the District's Most Significant Funds (continued)

Fund Financial Statements (continued)

• Fiduciary funds - Fiduciary funds are used to account for resources held for the benefit of parties outside of the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of these funds are not available to support the District's own programs. The District is the trustee, or fiduciary, for these funds and is responsible for ensuring that the assets reported in these funds are used for their intended purposes. The District's fiduciary activities are reported in a separate Statement of Net Position and a Statement of Changes in Assets and Liabilities that can be found on pages 23 and 57.

The notes to the financial statements provide additional information that is essential to a complete understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 24 thru 46.

The District as Trustee

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for money raised by student activities and alumni scholarship programs. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Assets and Liabilities on pages 23 and 57. We exclude these resources from the District's other financial statements because the District cannot use these assets to finance its operations. The District is only responsible for ensuring that the assets reported in these funds are used for their intended purposes.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position

As noted earlier, net position may serve over time as a useful indicator of the District's financial position. The District's combined net position between fiscal years 2015 and 2014, decreased by \$23,683, as can be seen in Exhibit III. The District's net investment in capital assets is \$2,209,359 and includes its investments in capital assets (e.g., land, buildings, equipment, improvements, and construction in progress) less any debt used to acquire those assets that is still outstanding.

The District uses these capital assets to provide service to citizens; consequently these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources need to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Net position of the District's governmental activities decreased from \$6,398,904 to \$6,375,221. Unrestricted net position - the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements was \$4,039,577 at June 30, 2015. This decrease in governmental net position was the result of four factors. First, the District's revenues exceeded the expenditures by \$136,812. Second, the District acquired capital assets in the amount of \$102,711. Third, the District recorded depreciation and other expenses not recognized in the amount of \$173,169. Fourth, due to the required implementation of new GASB 68 related to the District's participation in TRS, during 2015, which the District was required to record and disclose its share of the District's net pension liability and some deferred resource outflows and resource inflows related to the District's pension plan. During 2015 the District recorded a prior period adjustment of \$(160,495) (see Exhibit B-1) related to GASB 68.

Exhibit III provides a summary of the Assets, Liabilities and Net Position for governmental activities for the years ended June 30, 2015 and 2014, respectively.

GOVERNMENT-WIDE FINANCIAL ANALYSIS (continued)

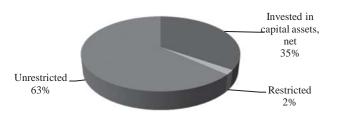

Net Position (continued)

For the year ended June 30, 2015, the District's total revenues decreased \$125,769, or 4.08%, over the prior year mainly driven by decrease in State aid - formula grants, due to increase in WADA from increase in property values.

For the year ended June 30, 2015, the District's total expenses increased by \$173,782, or 6.56%, over the prior year mainly driven by an increase in instruction expenses, due to new textbook adoption in 14-15.

Other Financial Highlights

For the year ended June 30, 2015, the District's total revenues were \$2,958,759. Approximately 59% of the District's revenue was generated by property taxes, 27% was generated from state aid grants, 8% was generated from other operating grants, 1% was generated from charges for services and the remaining 5% was generated from miscellaneous revenue sources (see Exhibit V).

Charges for services

1%

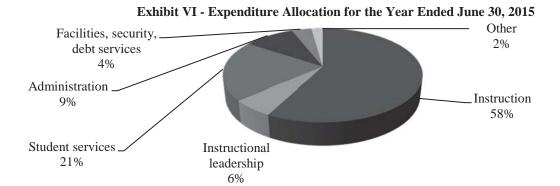

Operating grants
8%

State aid
27%

Taxes
59%

Exhibit V - Sources of Revenues for the Year Ended June 30 2015

For the year ended June 30, 2015, the District's total cost of all programs and services was \$2,821,947. Approximately 58% of the District's governmental activities were dedicated to instructional areas. Direct student services, such as counseling, nursing and transportation services comprised 21% of governmental expenses. The costs to operate facilities, including utilities, security services and debt payments comprised 4% of the cost of all programs (see Exhibit VI).

GOVERNMENT-WIDE FINANCIAL ANALYSIS (continued)

Other Financial Highlights (continued)

The District took actions this year to compensate for some expected increases in cost and avoid the loss of state revenue due to changes in the provisions related to accelerated, intensive, compensatory education (State Comp Ed) and student attendance accounting (Leavers).

- The District total property tax rate was set at \$1.20 per hundred dollar valuation in 2014, which decreased from 2013. The tax rate will be slightly increased to \$1.212 per hundred dollar valuation for the 2015-2016 school year.
- The cost of all governmental activities this year was \$2.8 million compared to \$2.6 million last year. However, as shown in the Statement of Activities on Exhibit B-1 (page 16), the amount that our taxpayers ultimately financed for these activities through District taxes was only \$1.7 million because some of the costs were paid by those who directly benefited from the programs (\$.04 million) or by other governments and organizations that subsidized certain programs with grants and contributions (\$0.2 million) or by State equalization funding (\$0.8 million).
- The District's management and budget managers were conservative in spending allocated resources.

THE DISTRICT'S FUNDS

As the District completed the year, its governmental funds (as presented in the balance sheet on page 18) reported a combined fund balance of \$4.3 million, which is higher than last year's total of \$4.2 million. Included in this year's total change in fund balance is an increase of \$28,303 in the District's General Fund.

Over the course of the year, the Board of Trustees revised the District's budget. The budget amendments involved moving funds from programs that did not need all the resources originally appropriated to them to programs with resource needs, and adjusting for changes in planned capital asset purchases.

The District's General Fund balance of \$4,142,879 reported on page 18 differs from the General Fund's budgetary fund balance of \$3,961,390 reported in the budgetary comparison schedule on page 49. This is principally due to cost savings and added revenues described above.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal 2015 the District had a net of \$4,190,834 invested in a broad range of capital assets, including facilities and equipment for instruction, transportation, athletics, administration, and maintenance. This amount represents a net decrease of \$87,619 or 2.0 percent, below last year.

This year's major additions included:

Elementary Classroom Wing HVAC Units	\$ 32,800
Ag Barn	30,000
Administration Building HVAC Units	12,590

CAPITAL ASSET AND DEBT ADMINISTRATION (continued)

Debt Administration

At year-end, the District had \$1,915,000 in outstanding long-term debt, related to the Series 2011 Unlimited Tax Refunding Bond refinanced by the District from the original 2007 bond. For more information on the District's long-term debt, see Notes H and I in the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District is located in Gray County, Texas. The primary economic activity of Gray County is agriculture and oil & gas activities. The majority of the District's property tax base is derived from agriculture and oil & gas property activities.

The District's student enrollment increased as enrollment was 205 at the beginning of fiscal year 2014-2015 and enrollment was 238 at the beginning of 2015-2016.

The District's elected and appointed officials considered many factors when setting the fiscal-year 2015-2016 budget and tax rates. The District approved to maintain the operating tax rate at \$1.04 per hundred dollar valuation, for the fiscal year 2015-2016. The District's interest and sinking tax rate increased to \$0.172 per hundred dollar valuation for the fiscal year 2015-2016.

These indicators were taken into account when adopting the General Fund budget for 2016. Amounts available for appropriation in the General Fund budget are \$2.4 million, and budgeted expenditures are expected to be \$2.6 million. The District has added no new major programs or initiatives to the 2016 budget.

For the 2015-2016 year, the District budgeted for an increase of approximately \$100,000 in State funding.

There are additional funding challenges in the future for all school districts, but with the strong support of the District's citizens and leadership of the Board of Trustees, the District's management is very confident that the District will remain financially sound.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's business office, at McLean Independent School District, 4th and Rowe Street, P.O. Box 90, McLean, Texas 79057.

MCLEAN INDEPENDENT SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION JUNE 30, 2015

	Total Fund Balances - Governmental Funds	\$ 4,269,164
1	Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$5,239,935 and the accumulated depreciation was (\$961,482). In addition, long-term liabilities, including bonds payable, are not due and payable in the current period, and, therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase net position.	2,127,678
2	Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the 2015 capital outlays and debt principal payments is to increase net position.	228,208
3	Included in the items related to debt is the recognition of the District's proportionate share of the net pension liability required by GASB 68 in the amount of \$139,994, a Deferred Resource Inflow related to TRS in the amount of \$42,825 and a Deferred Resource Outflow related to TRS in the amount of \$39,347. This amounted to a decrease in Net Position in the amount of \$143,472.	(143,472)
4	The 2015 depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net position.	(173,169)
5	Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable revenue from property taxes as revenue, reclassifying the proceeds of bond sales as an increase in bonds payable, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase net position.	66,812
19	Net Position of Governmental Activities	\$ 6,375,221

MCLEAN INDEPENDENT SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2015

Total Net Change in Fund Balances - Governmental Funds	\$ 53,654
Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of removing the 2015 capital outlays and debt principal payments is to decrease net position.	228,208
Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net position.	(173,169)
Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable revenue from property taxes as revenue, adjusting current year revenue to show the revenue earned from the current year's tax levy, reclassifying the proceeds of bond sales, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to decrease net position.	11,096
The implementation of GASB 68 required that certain expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of 8/31/2014 caused the change in the ending net position to increase in the amount of \$28,082. Contributions made before the measurement but during the 2015 FY were also dexpended and recorded as a reduction in the net pension liability for the district. This also caused a increase in the change in net position in the amount of \$1,881. The District recorded their proportionate share of the pension expense during the measurement period as part of the net pension liability. The amounts expensed for FY2015 were \$21,747 for pension expense columns 6 - 12 from TRS data and the amounts de-expended for the net deferred resouce inflow recognized by TRS in the measurement period were \$8,807. This caused a net decrease in the change in net position of \$12,940. The impact of all of these is to increase the change in net position by \$17,023.	17,023
Change in Net Position of Governmental Activities	\$ 136,812

NOTES TO THE FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

McLean Independent School District (the District) is a public educational agency operating under the applicable laws and regulations of the State of Texas. The District is governed by a seven member Board of Trustees (the Board) elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board and other authoritative sources identified in *Statement on Auditing Standards No. 69* of the American Institute of Certified Public Accountants; and it complies with the requirements of the appropriate version of Texas Education Agency's *Financial Accountability System Resource Guide* (the Resource Guide) and the requirements of contracts and grants of agencies from which it receives funds.

A. REPORTING ENTITY

The Board of Trustees (the Board) is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board (GASB) in its Statement No. 14, "The Financial Reporting Entity." There are no component units included within the reporting entity.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the District's nonfiduciary activities with most of the interfund activities removed. *Governmental activities* include programs supported primarily by taxes, State foundation funds, grants and other intergovernmental revenues. *Business-type activities* include operations that rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The "charges for services" column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include tuition paid by students not residing in the district, school lunch charges, etc. The "grants and contributions" column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If a revenue is not a program revenue, it is a general revenue used to support all of the District's functions. Taxes are always general revenues.

Interfund activities between governmental funds appear as due to/due from on the Governmental Fund Balance Sheet and as other resources and other uses on the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balance. All interfund transactions between governmental funds are eliminated on the government-wide statements. Interfund activities between governmental funds and fiduciary funds remain as due to/due from on the government-wide Statement of Activities.

The fund financial statements provide reports on the financial condition and results of operations for three fund categories – governmental, proprietary and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The District considers some governmental funds major and reports their financial condition and results of operations in a separate column.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the proprietary and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues available if they are collectible within 60 days after year end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the "susceptible to accrual" concept, that is, when they are both measurable and available. The District considers them "available" if they will be collected within 60 days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

The Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable.

The District applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless these pronouncements conflict or contradict GASB pronouncements. With this measurement focus, all assets and all liabilities associated with operations are included on the Statement of Net Position. The fund equity is segregated into invested in capital assets net of related debt, restricted net position, and unrestricted net position.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. FUND ACCOUNTING

The District reports the following major governmental funds:

1. The General Fund - The general fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.

Additionally, the District reports the following fund types:

Governmental Funds:

- 1. Special Revenue Funds The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a Special Revenue Fund, and sometimes unused balances must be returned to the grantor at the close of specified project periods.
- Debt Service Fund The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund.

Fiduciary Funds:

1. Agency Funds - The District accounts for resources held for others in a custodial capacity in agency funds. The District's Agency Fund is the Student Activity Fund. Financial resources for the agency funds are recorded as assets and liabilities; therefore, these funds do not include revenues and expenditures and have no fund equity. The student activity organizations exist with the explicit approval of, and are subject to revocation by, the District's Board of Trustees.

E. FUND BALANCE POLICY

The District reports fund balances for governmental funds in classifications based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The **nonspendable** classification represents assets that will be consumed or "must be maintained in tact" and therefore will never convert to cash, such as inventories or supplies and endowments. Provisions of laws, contracts, and grants specify how fund resources can be used in the **restricted** classification. The nature of these two classifications preclude a need for a policy from the Board of Trustees. However, the Board has adopted fund balance policies for the three unrestricted classifications - committed, assigned and unassigned.

From time to time, the Board of Trustees may commit fund balances by a majority vote in a scheduled meeting. The Board's commitment may be modified or rescinded by a majority vote in a scheduled meeting. Board commitments cannot exceed the amount of fund balance that is greater than the sum of nonspendable and restricted fund balance since that practice would commit funds that the District does not have. Commitments may be for facility expansion or renovation, program modifications, wage and salary adjustments, financial cushions (rainy day funds), and other purposes determined by the Board.

The Board of Trustees may delegate authority to specified persons or groups to make assignments of certain fund balances by a majority vote in a scheduled meeting. The Board may modify or rescind its delegation or authority by the same action. The authority to make assignments shall be in effect until modified or rescinded by the Board by majority vote in a scheduled meeting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. FUND BALANCE POLICY (continued)

When the District incurs expenditures that can be made from either restricted or unrestricted balances, the expenditures should be charged to restricted balances. When the District incurs expenditures that can be made from either committed, assigned or unassigned balances, the expenditures should be charged to committed balances, then assigned balances, with any remainders to be charged to unassigned balances.

As of June 30, 2015, the District reports the following governmental fund balance classifications:

Restricted	
Retirement of Long-Term Debt	\$ 126,285
Total Restricted	126,285
Committed	
Construction	1,989,408
Capital Expenditures for Equipment	168,626
Other Committed Fund Balance	300,000
Total Committed	2,458,034
Unassigned	1,684,845
Total Fund Balance	\$ 4,269,164

F. PENSIONS

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

G. OTHER ACCOUNTING POLICIES

The District reports purchases of supplies as expenditures when they are purchased.
 Inventories of food commodities are recorded at market values supplied by the Texas Department of Human Services. Although commodities are received at no cost, their fair market value is supplied by the Texas Department of Human Services and recorded as revenues and expenditures in equal amounts. If a material amount of supplies or commodities are on hand at the end of the year, their total cost is recorded as inventory and the fund balance is reserved for the same amount. At June 30, 2015, the amount of supplies and commodities on hand was not material.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

G. OTHER ACCOUNTING POLICIES (continued)

2. Capital assets, which include land, buildings, building improvements, furniture and equipment, and vehicles, are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings, building improvements, furniture and equipment, and vehicles of the District are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	50
Building Improvements	15-25
Vehicles	8-10
Office Equipment	5-20

- 3. In the fund financial statements, governmental funds report restrictions of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Assignments of fund balance represent tentative management plans that are subject to change
- 4. In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financial sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

As of June 30, 2015, the District had outstanding long term debt in the net amount of \$1,915,000, and an unamortized premium on bonds of \$66,475.

5. When the District incurs an expense for which it may use either restricted or unrestricted assets, it uses the restricted assets first unless unrestricted assets will have to be returned because they were not used.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

G. OTHER ACCOUNTING POLICIES (continued)

- 6. The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal 2015, the District purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.
- 7. The Data Control Codes refer to the account code structure prescribed by TEA in the *Financial Accountability System Resource Guide*. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to insure accuracy in building a Statewide database for policy development and funding plans.
- 8. The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.
- 9. The amounts on the statements have been rounded individually, consequently, some columns may not total and some schedules may not agree because of this rounding.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY DATA

The Board of Trustees adopts an "appropriated budget" for the General Fund, Debt Service Fund and the Child Nutrition Program. The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit G-1, the Child Nutrition Program Budget report is in Exhibit J-4 and the Debt Service Fund is in Exhibit J-5.

The following procedures are followed in establishing the budgetary data reflected in the general-purpose financial statements:

- 1. Prior to June 15 the District prepares a budget for the next succeeding fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days' public notice of the meeting must be given.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (continued)

A. **BUDGETARY DATA** (continued)

- 3. Prior to July 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Because the District has a policy of careful budgetary control, several amendments were necessary during the year. The following amendments were considered by management to be significant:
 - Total General Fund budget amendments to local revenue amounted to an increase of \$175,000.
 - Total General Fund budget amendments to state revenue amounted to an increase of \$50,000.
 - Total General Fund budget amendments to function 81 (Facilities Acquisitions & Construction) amounted to an increase of \$92,000.
- 4. Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end.

B. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

The District's management attempts to budget expenditures as accurately as possible during the budget process and to make necessary budget amendments throughout the year as needed. However, sometimes expenditures in the functional categories will exceed budgeted estimates. The District's expenditures exceeded budget appropriations for the General Fund for one functional category. This can be the result of expenditure accruals at year end, and other factors, some of which are in the control of management and others are not. Management is aware of the budget variances and will attempt to more closely monitor the budget in future years.

C. DEFICIT FUND EQUITY

There were no fund deficits during the year ended June 30, 2015.

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

A. DEPOSITS AND INVESTMENTS

District Policies and Legal and Contractual Provisions Governing Deposits

<u>Custodial Credit Risk for Deposits</u> - State law requires governmental entities to contract with financial institutions in which funds will be deposited to secure those deposits with insurance or pledged securities with a fair value equaling or exceeding the amount on deposit at the end of each business day. The pledged securities must be in the name of the governmental entity and held by the entity or its agent. Since the District complies with this law, it has no custodial credit risk for deposits.

<u>Foreign Currency Risk</u> - The District limits the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit by not allowing any deposits denominated in a foreign currency.

Compliance with the Public Funds Investment Act

The **Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. Among other things, it requires a governmental entity to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit.

Statutes authorize the entity to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the entity to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

As of June 30, 2015, the District had the following cash and investments.

		Inves	<u>stment Ma</u>	<u>turities (in y</u>	ears)
Investment Type	Fair Value	Less Than 1	1-5	6-10	More Than 10
Cash and Cash Equivalents	\$ 3,939,964	\$ 3,939,964			
Investment Pools - TexSTAR	542,194	542,194			
Total	<u>\$ 4,482,158</u>	<u>\$ 4,482,158</u>	<u>\$ -</u>	\$ -	\$

Additional policies and contractual provisions governing deposits and investments for the District are specified below:

III. <u>DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS</u> (continued)

A. **DEPOSITS AND INVESTMENTS** (continued)

<u>Credit Risk</u> - To limit the risk that an issuer or other counterparty to an investment will not fulfill its obligations the District limits investments to public funds investment pools, certificates of deposit, and savings accounts with its depository bank.

<u>Custodial Credit Risk for Investments</u> - For the District's investments, this is the risk that the District will be unable to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investments include certificates of deposit that are covered by depository insurance and pledged securities. Investments in the District's investment pool are limited to demand investments with AAA credit quality ratings.

<u>Concentration of Credit Risk</u> - To limit the risk of loss attributed to the magnitude of a government's investment in a single issuer, the District requires the depository bank to pledge securities held by the District's agent bank in the District's name sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance.

<u>Interest Rate Risk</u> - To limit the risk that changes in interest rates will adversely affect the fair value of investments, the District has established weighted average maturity limits and diversification standards.

Throughout the year and as of June 30, 2015, the District's bank deposits were fully insured by FDIC insurance coverage and pledged securities held by the District's bank in the District's name. As of June 30, 2015, the District's bank deposits consisted of the following collateral coverage:

Total bank deposits	\$ 3,939,964
FDIC insurance coverage	(250,000)
Fair market value of pledged securities	 (3,787,956)
Over collateralized deposits	\$ (97,992)

The District's investments as of June 30, 2015 are shown below:

<u>Name</u>	<u>Carr</u>	ying Amount	Ma	rket Value	Credit Rating
Cash in Bank	\$	801,478	\$	801,478	n/a
Certificate of Deposit in Bank					
(included in Investments)		3,138,486		3,138,486	n/a
Investment Pool - NAME		542,194		542,194	n/a
Totals	\$	4,482,158	\$	4,482,158	

B. PROPERTY TAXES

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during the school fiscal year or during a 60-day period after the close of the school fiscal year.

III. <u>DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS</u> (continued)

C. DELINQUENT TAXES RECEIVABLE

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible tax receivables within the General and Debt Service Funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

D. INTERFUND BALANCES AND TRANSFERS

Transfers are used to move revenues from the General Fund to supplement various Special Revenue Funds. Transfers for the year ended June 30, 2015 were as follows:

Transfers from General Fund to:	
Child Nutrition Program Fund	\$ 19,836
Total Transfers from General Fund	\$ 19,836

E. DEFERRED INFLOWS OF RESOURCES

Deferred inflows of resources in the fund financial statements excluding amounts related to TRS (See Note L) at year-end consisted of the following:

	Debt					
	Gen	eral Fund	Service	e Fund		Total
Unavailable revenue - property taxes	\$	57,649	\$	9,163	\$	66,812

F. DISAGGREGATION OF RECEIVABLES AND PAYABLES

Receivables in the Fund Financial Statements at June 30, 2015, were as follows:

	Property		D	Due from Due from			Total		
		Taxes	<u>O</u> 1	ther Govts	<u>Otl</u>	ner Funds	Other	Re	eceivables
Governmental Activities:									
General Fund	\$	67,409	\$	18,785	\$	_	\$ 3,412	\$	89,606
Debt Service Fund		10,617		328		<u> </u>			10,945
Total - Governmental Activities	\$	78,026	\$	19,113	\$		\$ 3,412	\$	100,551
Amounts not scheduled for collection									
during the subsequent year	\$	(11,214)	\$		\$		\$ 	\$	(11,214)

III. <u>DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS</u> (continued)

F. DISAGGREGATION OF RECEIVABLES AND PAYABLES (continued)

Payables in the Fund Financial Statements at June 30, 2015, were as follows:

							Due to		
A	ccounts	Sa	alaries and	Du	e to		Other		Total
_ <u>F</u>	Payable	_	Benefits	Other	Funds		Govt.	_ <u>F</u>	<u>Payables</u>

Total Depreciation Exper	ise			\$ 173,169

III. <u>DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS</u> (continued)

H. BONDS AND LONG-TERM NOTES PAYABLE

Bonded indebtedness of the District is reflected in the General Long-Term Debt Account Group. Current requirements for principal and interest expenditures are accounted for in the Debt Service Fund. Interest is payable on the bonds semiannually with interest rates ranging from 2.00% to 4.00%. The bonds mature through February 15, 2027.

A summary of changes in general long-term liabilities for the year ended June 30, 2015 is as follows:

Description	Average Interest Rate Payable	Amounts Originally Issued	Interest Current	Amounts Outstanding 7/1/2014	Issued & Accreted Interest	Outstanding Retired 6/30/2015
Description	Payable	Issued	<u>Year</u>	//1/2014	Interest	Retifed 0/30/2013
2011 Unlimited Tax Refunding Bo	nd 3.18%	\$ 2,445,000 \$	73,400	\$ 2,050,000	\$ -	\$135,000 \$ 1,915,000
Unamortized Premium	N/A		<u>-</u>	72,255		5,78066,475
Total Noncurrent Liabilities		<u>\$ 2,445,000</u> <u>\$</u>	73,400	\$ 2,122,255	<u> </u>	<u>\$140,780</u> <u>\$ 1,981,475</u>

There are a number of limitations and restrictions contained in the general obligation bond indenture. Management has indicated that the District is in compliance with all significant limitations and restrictions as of June 30, 2015.

I. DEBT SERVICE REQUIREMENTS - BONDS PAYABLE

Debt service requirements for bonds are as follows:

Year ended June 30, 2016 2017 2018 2019 2020 2021-2025	\$ Principal 140,000 145,000 150,000 155,000 160,000 900,000	\$ Interest 68,600 64,325 59,900 55,325 49,800 145,600	\$ Total 208,600 209,325 209,900 210,325 209,800 1,045,600
2026-2027	 265,000	7,700	272,700
Total Bonds Payable	\$ 1,915,000	\$ 451,250	\$ 2,366,250
Less Future Accretions	 	 	 <u>-</u>
Total Noncurrent Liabilities	\$ 1,915,000	\$ 451,250	\$ 2,366,250

III. <u>DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS</u> (continued)

J. ACCUMULATED UNPAID VACATION AND SICK LEAVE BENEFITS

Employees of the District are entitled to paid vacation and paid sick days depending on job classification, length of service or other factors. It is impractical to estimate the amount of compensation for future absences, and, accordingly, no liability has been recorded in the accompanying financial statements. The District's policy is to recognize the costs of compensated absences when actually paid to employees, which management believes is not material to the financial statements.

K. COMMITMENTS UNDER OPERATING LEASES

Commitments under operating (non capitalized) lease agreements for certain equipment provide for minimum future rental payments as of June 30, 2015, as follows:

Year ended August 31,	
2016	\$ 14,400
2017	 14,400
Total Minimum Rentals	\$ 28,800

Rental expenditures for the year ended June 30, 2015 were \$17,383.

L. DEFINED BENEFIT PENSION PLAN

Plan Description. The District contributes to the Teacher Retirement System of Texas (TRS), a cost-sharing multiple employer defined benefit pension plan. TRS administers retirement and disability annuities, and death and survivor benefits to employees and beneficiaries of employees of the public school systems of Texas. It operates primarily under the provisions of the Texas Constitution, Article XVI, Section 67, and Texas Government Code, Title 8, Subtitle C. TRS also administers proportional retirement benefits and service credit transfer under Texas Government Code, Title 8, Chapters 803 and 805, respectively. The Texas state legislature has the authority to establish and amend benefit provisions of the pension plan and may, under certain circumstances, grant special authority to the TRS Board of Trustees.

Pension Plan Fiduciary Net Position. TRS issues a publicly available financial report that includes financial statements and required supplementary information for the defined benefit pension plan. That report may be obtained by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701, by calling the TRS Communications Department at 1-800-223-8778, or by downloading the report from the TRS Internet website, www.trs.state.tx.us, under the TRS Publications heading. The information provided in the Notes to the Financial Statements in the 2014 Comprehensive Annual Financial Report for TRS provides the following information regarding the Pension Plan fiduciary net position as of August 31, 2014.

Net Pension Liability		Total
Total Pension Liability	\$	159,496,075,886
Less: Fiduciary Net Position		(132,779,243,085)
Net Pension Liability	\$	26,716,832,801
Net Position as percentage of Total Pension Liability	,	83.25%

III. <u>DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS</u> (continued)

L. **DEFINED BENEFIT PENSION PLAN** (continued)

Benefits Provided. Benefits are established or amended primarily under the authority of the provisions of the Texas Constitution, Article XVI, Section 67 and by the Legislature in the Texas Government Code, Title 8, Subtitle C. The pension's board of trustees does not have the authority to establish or amend benefits. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals or exceeds 80 years. Reduced service retirement is at age 55 with 5 years of credited service and any age below 50 with any years of credited service. A member is fully vested after 5 years of creditable service and entitled to any benefit for which eligibility requirements have been met. The plan does not provide automatic cost of living adjustments (COLA's).

Contributions. Contribution requirements are established or amended pursuant to the following state laws: (1) Article 16, section 67 of the Texas Constitution requires the legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in this manner are determined by the system's actuary. As the non-employer contributing entity, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During the new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, when employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge. Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. It also on certain employees effective for fiscal year 2015. The 83rd Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2014 and 2015. Contribution amounts for fiscal year August 31, 2014 are as follows:

	Contributions		
	Required and		
		Made	
Member (Employee)	\$	87,247	
Non-employer contributing entity (State)		80,258	
District		13,288	

III. <u>DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS</u> (continued)

L. DEFINED BENEFIT PENSION PLAN (continued)

Contribution rates for Plan fiscal year (September to August) 2014 and 2015 follow:

	Contribution Rates		
	Plan Fis	cal Year	
	2014	2015	
Member	6.4%	6.7%	
Non-Employer Contributing Entity (State)	6.8%	6.8%	
Employer	6.8%	6.8%	

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2015, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 139,994
State's proportionate share of the net pension liability	
associated with the District	 847,393
Total	\$ 987,387

The net pension liability was measured as of August 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the Districts' contributions to the pension plan relative to the contributions of all participating entities. At August 31, 2014, the District's proportion was 0.0005241%. Since this is the first year of implementation, the District does not have the proportion measured as of August 31, 2013. The notes to the Financial Statements for August 31, 2014 for TRS stated that the change in proportion was immaterial, and therefore, disregarded this year.

For the year ended August 31, 2014, the District recognized pension expense of \$78,340, which does not include any "on-behalf" payments at the fund or government-wide level, and revenue and expense of \$78,340 for support provided by the State.

III. <u>DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS</u> (continued)

L. DEFINED BENEFIT PENSION PLAN (continued)

At June 30, 2015, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred			Deferred		
	Ou	tflows of	Inflows of			
	Re	esources	Resources			
Differences between expected and		_				
actual experience	\$	2,165	\$	-		
Changes in assumptions		9,100		-		
Net difference between projected and actual earnings on pension plan investments		_		42,788		
Changes in proportion and differences between				,		
District contributions and proportionate share of contributions		-		37		
District contributions subsequent to the						
Measurement date		28,082				
Total	\$	39,347	\$	42,825		

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended		
June 30	_	
2015	\$	(8,803)
2016		(8,803)
2017		(8,803)
2018		(8,803)
2019		1,894
2020		1,758
Thereafter		-0-

There was a change in employer contribution requirements that occurred after the measurement date of the net pension liability and the employer's reporting date. A 1.5% contribution for employers not paying Old Age Survivor and Disability Insurance (OASDI) on certain employees went into law effective September 1, 2014. The amount of the expected resultant change in the employer's proportion cannot be determined at this time.

Changes of benefit terms. There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Changes of assumptions. There were no changes of assumptions or other inputs that affected measurement of the total pension liability during the measurement period.

III. <u>DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS</u> (continued)

L. DEFINED BENEFIT PENSION PLAN (continued)

Actuarial Assumptions. The total pension liability is determined by an annual actuarial valuation. The active mortality rates were based on the 1994 Group Annuity Mortality Table set back 6 years for both males and females. The Post-retirement mortality rates were based on client specific tables multiplied by 80%. The actuarial assumptions used in the valuation were based on the results of an actuarial experience study for the four-year period ending August 31, 2010 and adopted on April 8, 2011. With the exception of the post-retirement mortality rates for healthy lives and a minor change to the expected retirement age for inactive vested members stemming from the actuarial audit performed in the Summer of 2014, the assumptions and methods are the same as used in the prior valuation. When the mortality assumptions were adopted in 2011 they contained significant margin for possible future mortality improvements. As of the date of valuation there has been a significant erosion of this margin to the point that the margin has been eliminated. Therefore, the post-retirement mortality rates for current and future retirees has decreased to add additional margin for future improvement in mortality in accordance with the Actuarial Standards Practice No. 35.

The following assumptions were applied to this measurement period:

Valuation Date August 31, 2014

Actuarial Cost Method Individual Entry Age Normal
Amortization Method Level Percentage of Payroll, Open

Remaining Amortization Period 30 year

Asset Valuation Method 5 year Smoothed Market

Actuarial Assumptions:

Discount Rate 8.00%

Long-term expected Investment

Rate of Return 8.00% Inflation 3.00%

Salary Increases 4.25% to 7.25% including inflation

Ad hoc post-employment benefit changes

None (The COLA for the period beginning

September 1, 2013 that was paid starting October 1, 2013 was included in the 2013 Actuarial Valuation and thus is not considered an ad hoc post-employment benefit change assumption for fiscal

year 2014.)

Discount Rate. The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous fiscal year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to the available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

III. <u>DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS</u> (continued)

L. DEFINED BENEFIT PENSION PLAN (continued)

Discount Rate. (continued)

The long-term expected rate of return on pension plan investments is 8.0%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2014 are summarized below:

		Long-Term	Expected
		Expected	Contribution to
	Target	Geometric Real	Long-Term
Asset Class	Allocation	Rate of Return	Portfolio Returns
Global Equity			
U.S.	18%	4.6%	1.0%
Non-U.S. Developed	13%	5.1%	0.8%
Emerging Markets	9%	5.9%	0.7%
Directional Hedge Funds	4%	3.2%	0.1%
Private Equity	13%	7.0%	1.1%
Stable Value			
U.S. Treasuries	11%	0.7%	0.1%
Absolute Return	0%	1.8%	0.0%
Stable Value Hedge Funds	4%	3.0%	0.1%
Cash	1%	-0.2%	0.0%
Real Return			
Global Inflation Linked Bonds	3%	0.9%	0.0%
Real Assets	16%	5.1%	1.1%
Energy and Natural Resources	3%	6.6%	0.2%
Commodities	0%	1.2%	0.0%
Risk Parity			
Risk Parity	5%	6.7%	0.3%
Inflation Expected			2.2%
Alpha _			1.0%
Total	100%		8.7%

The Expected Contribution to Returns incorporates the volatility drag resulting from the conversion between Arithmetic and Geometric mean returns.

For the year ended August 31, 2014, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense was 16.9 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

III. <u>DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS</u> (continued)

L. DEFINED BENEFIT PENSION PLAN (continued)

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (8%) in measuring the 2014 Net Pension Liability.

	Current					
		1% Discount				1%
	I	Decrease 7%		Rate		Increase
						9%
District's proportional share of the net pension liability	\$	250,161	\$	139,994	\$	57,610
Plan net pension liability	Ψ	230,101	Ψ	137,774	Ψ	37,010
(in millions from TRS CAFR)	\$ 47	,737,071,723	\$	26,716,832,801	\$	10,997,609,140

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued TRS financial report.

M. HEALTH CARE COVERAGE

During the year ended June 30, 2015, the District provided medical benefits coverage (the Plan) to its employees through the Teacher Retirement System (the TRS). The Plan was created and is operated under the provisions of the Texas Active School Employees Uniform Group Benefits Act (H.B. 3343) enacted by the 77th Legislature. H.B. 3343 established a new statewide health coverage program for public school employees and their dependents. The TRS began administering the Plan, known as the TRS-ACTIVECARE, as of September 1, 2003. The Plan includes employees of most small to mid-size districts, charter schools, education service centers, and certain other employees.

Participants in the Plan can choose from several different benefit options, and must meet certain eligibility requirements. Currently, participants must either be an active, contributing, TRS member or must be employed for 10 or more hours each week to be eligible for coverage under the Plan.

Each member district is billed monthly based upon the number of employees participating in the Plan. The District contributed \$273 per month per full time employee to the Plan. For the year ended June 30, 2015, total payments to the Plan by the District were \$118,839, of which \$93,447 was paid by the District's employees, resulting in a net cost to the District for health benefit coverage of \$95,392.

According to the Plan's administrator, Plan participants retain the risk associated with the Plan, with no risks being transferred or assumed by the TRS, member districts, or by the State of Texas. Additional information pertaining to the Plan can be obtained by contacting the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701, by calling the TRS at 1-800-223-8778, or by downloading information from the TRS website at www.trs.state.tx.us.

III. <u>DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS</u> (continued)

N. RETIREE HEALTH PLAN

The District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit postemployment health care administered by the Teacher Retirement System of Texas. TRS-Care Retired Plan provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575, Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The TRS issues a publicly available financial report that includes financial statements and required supplementary information of TRS-Care. That report may be obtained by visiting the TRS website at www.trs.state.tx.us, by writing to the Communications Department of the TRS at 1000 Red River Street, Austin, Texas, 78701, or by calling 1-800-223-8778.

Funding Policy - Contributions requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, 204 establish state, active employee, and public school contributions respectively. Funding for the basic coverage is provided by the program based upon public school district payroll. Per Texas Insurance Code, Section 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. Funding for optional coverage is provided by those participants selecting the optional coverage. Contribution rates and amounts are shown in the table below for fiscal years 2015-2013:

Contribution Rates and Amounts								
	Active Member		St	District				
Fiscal Year	Rate	Amount	Rate	Amount	Rate	Amount		
2015	0.65%	\$ 9,601	1.00%	\$ 14,772	0.55%	\$ 8,125		
2014	0.65%	8,862	1.00%	13,634	0.55%	7,499		
2013	0.65%	8,718	1.00%	6,288	0.55%	7,377		

O. ACCOUNTING FOR EMPLOYEE BENEFITS - ON-BEHALF PAYMENTS

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. These on-behalf payments must be recognized as equal revenues and expenditures/expenses by the District. For the years ending June 30, 2015, 2014, and 2013, the District's portion of subsidy reimbursements received by TRS and recognized as equal expenditures/expenses was \$6,120, \$3,334, and \$3,554, respectively. The plan covering these retired employees is the Teacher Retirement System of Texas, and these on-behalf payments are being made by the federal government to the State of Texas as a pass through grant to the Texas Education Agency on behalf of the District.

P. DUE FROM STATE AGENCIES

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. All federal grants shown below are passed through the TEA and are reported on the combined financial statements as Due from State Agencies.

III. <u>DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS</u> (continued)

P. DUE FROM STATE AGENCIES (continued)

Amounts due from state agencies at year end consisted of the following:

Fund	St	ate Entitlements	Federal Grants		 Total
General Fund	\$	18,785	\$	-	\$ 18,785
Non-Major					
Governmental Funds				328	 328
Total	\$	18,785	\$	328	\$ 19,113

Q. REVENUE FROM LOCAL AND INTERMEDIATE SOURCES

During the current year, revenues from local and intermediate sources consisted of the following:

	Non-Major						
		Governmental					
_	General Fund	Funds		Total			
Property taxes	\$ 1,502,815	\$ 231,403	\$	1,734,218			
Penalties, interest and other	16,701	2,298		18,999			
Investment income	12,940	50		12,990			
Food sales	-	24,446		24,446			
Co-curricular student activities	9,094	-		9,094			
Foundations, Gifts and Bequests	s 1,851	126,142		127,993			
Instructional Services	5,285			5,285			
Totals	1,548,686	384,339		1,933,025			

R. LITIGATION AND CONTINGENCIES

At June 30, 2015, the District had no known or threatened pending litigation that would materially affect the District's financial condition.

The District participates in numerous state and federal grant programs that are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any receivable at June 30, 2015 may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

S. CONSTRUCTION, SIGNIFICANT COMMITMENTS AND CONTINGENCIES

The District has no significant construction projects or other commitments and contingencies as of June 30, 2015. Shortly after year end construction project on gym started. See Note X.

III. <u>DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS</u> (continued)

T. JOINT VENTURE-SHARED SERVICE ARRANGEMENTS

The District participates in a shared services arrangement ("SSA") for Special Education with eleven other districts. Approximately, 9% of the SSA's activity is attributable to the District's participation. The District does not account for revenues or expenditures in this program and does not disclose them in these financial statements. Shamrock ISD (242902) is the fiscal agent manager and is responsible for all financial activities of the shared service agreement. The District contributed \$15,117 to the shared services agreement from the General Fund.

The District participates in a shared services arrangement ("SSA") for Career and Technical Basic Grant Carl Perkins, Fund 244. Region 16 Education Service Center (188950) is the fiscal agent. The District received \$2,776 from the fiscal agent.

U. PRIOR PERIOD ADJUSTMENTS

Due to the required implementation of new GASB 68 "Accounting and Financial Reporting for Pensions", related to the District's participation in TRS, during 2015, the District was required under GASB 68 to record and disclose its share of the District's net pension liability and deferred resource outflows and resource inflows related to the District's pension plan. During the year ended June 30, 2015 the District recorded a prior period adjustment of \$(160,495) (see Exhibit B-1) related to GASB 68. The beginning restated net position was \$6,238,409.

V. PROPERTY PROGRAM

During the year ended August 31, 2014, the District participated in the TASB Risk Management Fund's (the "Fund") Property Program with coverage in: crime; equipment breakdown; and property. The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

The Fund purchases stop loss coverage for protection against catastrophic and larger than anticipated claims for the Property Program. The terms and limits of the stop loss program vary by line of coverage. The Fund uses the services of an independent actuary to determine the adequacy of reserves and fully funds those reserves. For the year ended June 30, 2015, the Fund anticipates the District has no additional liability beyond the contractual obligation for payment of contributions.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2014, which is the most current report provided to the public, are available at the TASB offices and have been filed with the Texas Department of Insurance in Austin.

III. <u>DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS</u> (continued)

W. SERVICE CONTRACT WITH REGION 16 EDUCATION SERVICE CENTER

The District has contracted with Region 16 Education Service Center (Region 16) to perform certain accounting duties for the District for the 2015-2016 fiscal year. The contracted amount of \$25,200 includes the reconciliation of the general fund bank accounts; review of accounting records including balance sheet accounts, revenue and expense accounts, due to/due from accounts, journal and budget entries and payroll balancing; and assisting with budget preparation, journal entries and payroll. The contract with Region 16 may be renewed annually. The District also pays Region 16 lease for the use of its accounting software, approximately \$13,000. Also, the District pays Region 16 consulting services for certain compliance and administrative services, approximately \$68,000.

X. SUBSEQUENT EVENTS

Management of the District has evaluated subsequent events through November 9, 2015, the date the financial statements were available to be issued.

The District started a renovation project of the gym facility which included building of trophy cases and remodeling of the vestibule, foyer, concession stand, and locker rooms at a projected cost of \$158,266.

The District is planning to start a construction project to add a track field events area.

During September 2015, the District received a payment of \$87,037 for the District's portion of the J Cleo Thompson lease bonus for the lease of Gray County Permanent School Lands in Gaines County.

REPORTS ON COMPLIANCE AND INTERNAL CONTROL

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Independent Auditor's Report

Board of Trustees McLean Independent School District McLean, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of **McLean Independent School District** (the District) as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 9, 2015.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Board of Trustees McLean Independent School District Page 2

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed two instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*., which are described in the accompanying Schedule of Findings and Questioned Costs as **2015-01 and 2015-02**.

The District's Response to Findings

The District's response to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs and the accompanying Corrective Action Plan. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Johnson & Sheldon, PLLC

Johnson & Sheldon PLLC

November 9, 2015

MCLEAN INDEPENDENT SCHOOL DISTRICT SCHEDULE OF FINDINGS AND QUESTIONED COSTS Year Ended June 30, 2015

I. Summary of the Auditor's Results:

- 1. The type of report issued on the basic financial statements was an unmodified opinion.
- 2. There were no significant deficiencies in internal control disclosed by the audit of the basic financial statements and there were no material weaknesses.
- 3. The audit did not disclose noncompliance which is material to the basic financial statements of the District.

II. Findings Relating to the Financial Statements Which Are Required To Be Reported in Accordance with Generally Accepted Government Auditing Standards.

2015-01 - Budget Variance:

Criteria: Under current State regulations, the District is required to adopt an annual budget for the General Fund, Debt Service Fund and Food Service Fund. The budgets should be monitored throughout the year and amended as needed by the District's Administration.

Condition: We noted that at year end, the overall expenditures for the General Fund exceeded the final amended budget in one functional category. The cause for this variance was due to unbudgeted PEIMS support services costs incurred in the current year.

Cause: The District did not maintain adequate Internal Controls over the budgeting amendment process to ensure that the data processing costs are considered in the final budget amendment process.

Effect: The District did not properly budget for expenditures incurred in the General Fund in Function 53 (Data Processing) for the year ended June 30, 2015, which is a potential violation of State budgetary laws. The under budget amount of \$584 out of total data processing expenditures of \$42,200 budgeted for, represents 1.3% under budgeted expenditure.

Recommendation: We recommend that the District enhance its Internal Controls to properly monitor the budgeted amounts to actual expenditures incurred, with any necessary budget amendments being made and approved by the Board of Trustees. We believe the District should perform a PEIMS edit check prior to year end each year to look for these types of deficits, and that if any are detected, they be corrected prior to the District's year end. This would also include amending and approving the District's budgets when needed.

Management's Response: The District's budgets will be monitored by the Board of Trustees at monthly meetings. The District's Business Manager at Region 16 will also monitor the budget on a monthly basis and will run the PEIMS edit annually, during June, to ensure the District's expenditures do not exceed budgeted amounts. The budgets will be amended by the Board of Trustees to cover all expenditures.

2015-02 - The District did not spend required percentage of their Allotment from the Near Final Summary of Finances for Career and Technology on Direct Program Expenses:

Criteria: Under current state regulations, the District is required to spend a specified percentage of their Career & Technology Program Allotment on direct program expenses.

Condition: We noted that at year end, the direct expenditures related to the Career & Technology Program was less than the required percentage of the Career & Technology allotment on the Near Final Summary of Finances.

MCLEAN INDEPENDENT SCHOOL DISTRICT SCHEDULE OF FINDINGS AND QUESTIONED COSTS (continued) Year Ended June 30, 2015

II. Findings Relating to the Financial Statements Which Are Required To Be Reported in Accordance with Generally Accepted Government Auditing Standards.

Cause: The District did not spend the minimum required percentage of the Career & Technology Program Allotment on direct program expenses for the Career & Technology Program. The District spent \$93,712 or 35% of the \$267,368 FSP allotment for Career and Technology Program. The District is required to spend 58% or \$155,073 of the FSP allotment, which resulted in underspending in Career and Technology Program of \$61,361.

Effect: The District did not comply with TEA requirements to spend the minimum required percentage of the Career & Technology Program Allotment on direct program expenses.

Recommendation: We recommend that the District comply with all TEA requirements, including requirements related to spending of the District's Career & Technology Program Allotment.

Management's Response: The District will continue to closely monitor the spending levels for the various Program Intent Codes.

MCLEAN INDEPENDENT SCHOOL DISTRICT SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS Year Ended June 30, 2015

(Prepared by the District's Administration)

There was no requirement for a summary schedule of prior audit findings since there were no audit findings for the prior year.

MCLEAN INDEPENDENT SCHOOL DISTRICT CORRECTIVE ACTION PLAN Year Ended June 30, 2015

(Prepared by the District's Administration)

2015-01 - Budget Variance:

- The name of the contact person responsible for the corrective action: Pam Mitchell, Superintendent.
- The corrective action planned: The District's budgets will be monitored by the Board of Trustees at monthly meetings. The District's Business Manager at Region 16 will also monitor the budget on a monthly basis and will run the PEIMS edit annually, during June, to ensure the District's expenditures do not exceed budgeted amounts. The budgets will be amended by the Board of Trustees to cover all expenditures.
- The anticipated completion date: No later than June 2016.

2015-02 - The District did not spend the required percentage of their Allotment from the Near Final Summary of Finances for Career and Technology Program Expenses:

- The name of the contact person responsible for corrective action: Pam Mitchell, Superintendent.
- The corrective action planned: The District's Management is aware of the noncompliance and will closely monitor direct program expenditures to ensure the required allotment is met.
- The anticipated completion date: No later than June 2016.

MCLEAN INDEPENDENT SCHOOL DISTRICT NOTES ON ACCOUNTING POLICIES FOR SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS Year Ended June 30, 2015

- For all Federal programs, the District uses the fund types specified in Texas Education Agency's *Financial Accountability System Resource Guide*. Special revenue funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a Special Revenue Fund.
- The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types and Expendable Trust Funds are accounted for using a current financial resources measurement focus. All Federal grant funds were accounted for in a Special Revenue Fund which is a Governmental Fund type.

With this measurement focus, only current assets and current liabilities and the fund balance are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. The modified accrual basis of accounting is used for the Governmental Fund types. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on General Long-Term Debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as deferred revenues until earned.

- The period of availability for federal grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 30 days beyond the federal project period ending date, in accordance with provisions in Section H, Period of Availability of Federal Funds, Part 3, OMB Circular A-133 Compliance Statement Provisional 6/97.
- CFDA number 10.550 pertains to food commodities distributed by USDA under the following categorical programs (as applicable): the National School Lunch Program (CFDA 10.555) and the School Breakfast Program (CFDA 10.553). USDA deleted this number from the CFDA on May 6, 2008. The audit covering River Road Independent School District fiscal year beginning September 1, 2010, and future audits, will therefore identify commodity assistance by the CFDA numbers of the programs under which USDA donated the commodities.

SF2	Were there any disclosures in the Annual Financial Report and/or other sources of information concerning nonpayment of any terms of any debt agreement at fiscal year end?	No
SF4	Was there an unmodified opinion in the Annual Financial Report on the financial statements as a whole?	Yes
SF5	Did the Annual Financial Report disclose any instances of material weaknesses in internal controls over financial reporting and compliance for local, state, or federal funds?	No
SF6	Was there any disclosure in the Annual Financial Report of material noncompliance for grants, contracts, and laws related to local, state, or federal funds?	No
SF7	Did the school district make timely payments to the Teachers Retirement System (TRS), Texas Workforce Commission (TWC), Internal Revenue Service (IRS), and other government agencies?	Yes
SF8	Did the school district not receive an adjusted repayment schedule for more than one fiscal year for an over allocation of Foundation School Program (FSP) funds as a result of a financial hardship?	Yes
SF10	Total accumulated accretion on CABs included in government-wide financial statements at fiscal year-end.	0
SF11	Net Pension Assets (1920) at fiscal year-end.	0
SF12	Net Pension Liabilities (2540) at fiscal year-end.	139,994
SF13	Pension Expense (6147) at fiscal year-end.	12,940
